WHITE WAY LIGHTING WORK UNDER WAY—City workmen this morning began preparing for the installation of the new "white way" lighting that will be erected on downtown State Street and South Broadway. Here, City Electrician Walter Worman and Service Director James Feiler watch as Gerald Gilbert digs out hole for first pole. Arthur Coy stands by with the drill. The work began on State Street near Ellsworth Avenue.

Program Needs Improvement, Report Says

APA Advises Ohio To Build New Mental Institutions

COLUMBUS, Ohio (AP)—Build new hospitals to care for Ohio's overcrowded mentally ill population. That's the advice of the American Psychiatric Assn.

The APA's central inspection board recently completed a two-year study of the state's mental hospital program.

It said today the Ohio program is basically sound, but needs improvements.

The APA's report was released today by Dr. John D. Porterfield,

director of the new Department of Mental Hygiene and Correction.

The study began in 1952 at the request of John H. Lamneck, then director of the Department of Public Welfare. The study cost the state \$9,950.

"Some of the improvements recommended have already been made since the study was undertaken two years ago," Dr. Porterfield said. He said he authorized the APA to make another survey to cover the entire mental health field in Ohio. It begins Sept. 1 and is scheduled for completion April 30 next year.

In common with other states, the report said overcrowding of present Ohio facilities is one major problem to overcome. Another big problem cited was an "acute shortage of registered nurses."

The ratio of nurses to patients is far below standard, the report stated.

Dr. Porterfield said mental hospitals find it more difficult to obtain nurses than other hospitals because of the nature of the work.

If nurses were available, the report said, it would cost Ohio a minimum of five million dollars a year to meet the standard.

One recommendation made by the APA already has been carried out. That was a state mental health program that would be removed from other departments "and reorganized in a new department of mental health."

The recent creation of the department of mental hygiene and correction with Dr. Porterfield—former state health director—at the head was a step in this direction.

The new Ohio department removes all mental, penal and correctional institutions from the Department of Public Welfare.

U. S. Spy, Friend Of John, Kills Self

BERLIN (AP)—An American counterintelligence agent, known to be a friend of missing West German security chief Otto John, has committed suicide in his Berlin quarters, it was learned today.

Fellow officers found the man, a naturalized American with the rank of captain in the Counterintelligence Corps, mortally wounded in his billet near the American Army hospital last Friday. He was pronounced dead on arrival at the hospital.

The Army has withheld announcement of his identity until the family is notified.

Rumors that the agent was being questioned and that he was suspected of disloyalty were flatly denied by U. S. authorities today.

A senior officer said a complete inquiry shows the man to be above suspicion.

Officers said the agent had known Dr. John, former chief of the West German Federal Office for Protection of the Constitution, for some time. The agent shot himself the day after John's disappearance in the Soviet sector was made public.

RHEE, IKE AIR KOREAN PROBLEMS

Atomic Filibuster Revived, Senator Predicts Debate Until Thanksgiving

WASHINGTON (AP)—Sen. Anderson (D-NM) said today that tactics used by Republican Leader Knowland have blown up chances for an early end to the marathon battle over the administration's atomic bill.

"We'll be here to Thanksgiving now," Anderson said.

While he talked with reporters the Senate ground on into a new day in another round-the-clock session. Sen. Morse (Ind-Rep.) was still firing away with a speech he started last midnight. Morse, in his third marathon talk stint of the atomic dispute, was still going strong with a criticism of the administration's power policy.

Anderson hotly charged that Knowland "promoted a filibuster as hard as he could" by moving to table, and thus kill without debate, an amendment to the controversial legislation which was offered late last night.

Word had been sent to Know-

land, before he abruptly cut down Morse's amendment, that he would start "the fur flying" if he made another tabling motion, Anderson said.

Earlier, as dawn was breaking over the Capitol after its fourth all-night session in recent days, Knowland said he hoped and expected the administration measure overhauling the nation's atomic energy law could be passed during the day.

To Keep Session Going
But if not, he said grimly, he would keep the Senate going non-stop.

Knowland kept one session going 86 hours last week in an effort to wear down the opposition.

A Democratic group, with enthusiastic aid from Morse and a little Republican help, first tried for an amendment to bar a proposed Atomic Energy Commission contract for private power to replace Tennessee Valley current

supplied to atomic installations.

After losing that fight, the critics of the measure have been trying to cut out for further study the whole domestic section of the bill, aimed at promotion of private atomic operations. There has been much less criticism of the foreign portions of the legislation, which would allow limited exchange of atomic weapons information with allies.

Anderson, holding his thumb and forefinger just a little apart, said "we were just that close" to action on the bill when Knowland made his motion to table last night.

"Now it's hopeless," he said.

"The only way you can stop debate now is through cloture. I would say."

And to do that, he noted, would take 20 more votes than the administration was able to muster.

RHEE ARRIVES—Pres. Syngman Rhee of South Korea, center, is greeted by President Eisenhower as he and his wife, right, arrive at the White House. Rhee is expected to express his fears that Thailand will be the next victim of Red aggression in Asia.

Visiting Chief To Again Insist On Unified Korea

Talks Have Blunt Tone; No Chance To Resume War Seen

WASHINGTON (AP)—President Syngman Rhee of South Korea confers with President Eisenhower and Secretary of State Dulles today at the formal opening of friendly but blunt talks on military and economic problems besetting partitioned Korea.

Rhee was regarded as certain to renew his demand for steps to unify Korea.

The outspoken 79-year-old South Korean President had set a blunt tone in an impromptu statement on his arrival yesterday for intensive talks running through Friday. He thanked the American people for their aid but said there would be no unification worries if the Allies "only had a little more courage" in driving out the Communists.

"Some Cold Feet"
He said the Reds were not pushed across the Yalu River because "some people had a little cold feet."

Eisenhower also gave an indication at his news conference last week of the frank nature the talks are expected to assume. He said then he knew of no one in this country who was advocating resumption of Korean hostilities.

Rhee and his wife were overnight guests at the White House. They were entertained by the President and Mrs. Eisenhower with a state dinner attended by 50 American diplomatic, congressional and military leaders and their wives.

Hopes For U. S. Aid

Beyond his reference to unification, Rhee has been silent on specific proposals. Seoul reports have said he hopes for American equipment and supplies to help expand the present 20-division South Korean army by 15 to 20 divisions.

Rhee, responding to Vice President Nixon's airport greeting yesterday, thanked the American people "and your great President for sending your boys to Korea to fight for the common cause of democracy."

Since American forces arrived, he said, "the Communists have failed. They know they have failed and if we had only a little more courage we could have reached the Yalu. At least we would not have to worry about the unification of Korea." He continued:

"But some people had a little cold feet and we did not do what we already could do. This would have been the best thing for Korea, the United States, the United Nations and all free nations."

Man Knocked Down By Passing Bicycle

Three traffic accidents were reported to city police Monday.

Gowen Thomas, RD 1, Salem, was knocked down by a 16-year-old bicyclist at 11:30 p. m. yesterday as he emerged from the doorway of a W. State St. store. Thomas suffered a bruised knee.

A city light pole was damaged when a parked auto owned by Howard Ave., drifted back over the curb in front of his home and hit the pole. The globe was broken. The incident occurred at 7:38 p. m. Monday.

An auto driven by John P. Pierce, 32, 318 S. Union Ave., ran into the rear of a car driven by Mrs. Treva E. Trotter, 40, of 181 Fair Ave., at 9:15 p. m. on Franklin Ave. According to police, Mrs. Trotter stopped suddenly to avoid hitting a cyclist and Pierce hit the rear of her car.

4 Drivers Draw Fines On Traffic Violations

A total of \$45 was collected from four traffic violators yesterday by Mayor Dean B. Cranmer.

Donald G. Christen, 26, 323 W. State St., was fined \$10 and costs after pleading guilty to a charge of crossing the yellow center line. Fined \$15 and costs for speeding was Thomas E. Flickinger, 25, of East Palestine, while Dewey Burman, 23, of Akron was assessed \$10 and costs for passing without the assured clear distance. For failure to stop at a traffic signal Ralph A. Van Fossan, 25, RD 1, Leetonia, paid \$10 and costs.

Airliners, Jets Meet Off China

U. S., Unidentified Planes Are Sighted

HONG KONG (AP)—Three airline pilots reported encounters with jet fighters off Red-held Hainan Island today—two with U. S. planes and the other with unidentified jets.

A Pan American World Airways pilot reported he was "escorted" for a few minutes by four U. S. Navy jets. The airline office here said no request had been made for fighter escort for its planes.

The two other pilots asserted their transports had been buzzed by fighter planes.

Capt. Homib Misty, pilot of an Air India plane which arrived here from Bangkok, reported his craft was buzzed by two United States jets about 80 miles off Hainan at 3:30 p. m.

Jets Buzz Plane
And Capt. Jack R. Brugger of Paris, pilot of an Air France Constellation, said four unidentified jets buzzed his transport about 10 miles off Hainan.

Brugger described the planes as "the shape and color" of Communist MIG jets.

The incident occurred in the general area where a British airliner was shot down by Chinese Red fighters Friday with a possible loss of 10 lives, including three Americans.

Misty said he "saw two more U. S. jets about six miles away." He estimated his position as 10 miles north of Tourane on the Indochina coast. Misty described the planes as "of a black color."

Jets Follow Plane

Brugger said four unidentified jets followed his plane for four minutes and then swooped over the Constellation's nose before they disappeared.

The Air France transport, bound from Saigon to Tokyo with 20 persons aboard, landed safely at Hong Kong's Kai Tak Airfield at 1:19 p. m.

Brugger said the fighters were green in color but that he could see no markings. He said they were "definitely not" United States jets.

Brugger said his plane was two hours out of Saigon and flying at 17,000 feet when the four fighters appeared behind him.

The transport continued to Tokyo.

Later Capt. Max C. Weber of Great Barrington, Mass., pilot of a Pan American World Airways transport which arrived here from Bangkok, reported he was "escorted" for a few minutes by four U. S. Navy jet fighters.

Woman Fined Following Collision On Bridge

Mrs. Edna May Black, 46, of Alliance, was fined \$30 and costs by Mayor Lloyd Culler of Washington following a collision on the Guilford Lake Road at 10 p. m. yesterday.

According to state patrolmen, Mrs. Black, in attempting to pass an auto driven by Ray L. Thompson, 34, of RD 3, Salem on a one-lane bridge, sideswiped the Thompson vehicle. Mrs. Black was charged with reckless driving.

U. S. to Demand Immediate End To Air Attacks

WASHINGTON (AP)—The United States was reported today to fire a strongly worded protest at Communist China, demanding an immediate halt to attacks on American and British planes.

A note already has been drafted, officials said, denouncing the action of Red Chinese fighters in shooting down first a British commercial airliner and later firing on American Navy rescue mission planes.

Any American note will be relayed through the British, who recognize the Chinese Communist government. This country does not.

Angry Protests

The weekend plane clashes, climaxed by the shooting down of two attacking Chinese fighters by U. S. planes, aroused angry protests in Congress and further embittered American feelings toward the Peiping regime.

Sen. Ferguson (R-Mich.) said today the Communist world should read "a strengthened U. S. foreign policy" into the shooting down Sunday night of the two Communist planes off the Red-held island of Hainan.

Others on Capitol Hill joined in a general "well done" for the U. S. Airman who downed the planes.

Seen Wise Policy

Ferguson, chairman of the Senate Republican Policy Committee, said it was wise policy to shoot down the Communist attackers, because failure to fight back "might have misled them into believing that Americans won't fight."

"Let this be a lesson to them, that Americans will defend themselves and their rights on the high seas," he added.

Ferguson said the Communists should have recognized "strengthened U. S. foreign policy" in recent months, particularly since President Truman's warning.

City, Couple Are Sued For Fall Injuries

The father of 13-year-old Salem boy who broke his arm when he allegedly slipped on slag last winter, has sued the City of Salem and a Warren couple for a total of \$5,102.

Daniel Guappone of 284 Rose St., in a petition filed in Common Pleas Court in Lisbon, said Grace and A. T. Natale of Warren and Salem officials were negligent for permitting slag to wash from a used car lot and collect on the sidewalk along Rose St. Guappone said his son, Gerald, fell as a result when the stones rolled under his feet Nov. 18, 1953.

Guappone said the gravel has been washing from the Natale property for the past four years and neither defendant has attempted to remove it from the sidewalk.

The plaintiff is asking \$5,000 for bodily damages and \$102.52 for medical expenses.

Road Grading Contract Is Let

Pidgeon Road Ext. Will Be Improved

The Plate Excavating Co. of Wellsboro on Monday was awarded a \$3,471.20 contract for doing grading and embankment work on Pidgeon Road Extension between Depot Road and State Route 9.

The contract for the excavating work was let by Columbiana County Commissioners after they reviewed three bids. Others were offered by Fred W. Polen of Salineville, \$3,635.24, and the Kane Brothers Co. of Youngstown, \$4,685.64.

County Engineer Charles Snyder's estimate on the project was \$4,091.40 or \$620 more than the low bid.

The job involves the moving of 5,702 cubic feet of earth on the 1.14 mile stretch of road.

Completion date set for the excavation is Sept. 15, and the road should be ready for travel this winter, Snyder stated.

County road crews will do fine grading after the Wellsboro company is finished. The road will be slag-treated for the base course and a black-top will be added, the engineer said.

Previously, the Pidgeon Road was improved from the Lisbon to the Depot Road.

After the link between the Depot Road and Rt. 9 is established, the city of Salem must carry the traffic line on in to connect to the Damascus Road (Rt. 62), thereby creating a partial bypass of Salem to the south.

Foundation Gifts Aid Mount Union

A sum of \$18,308.37 was donated to Mount Union College, Alliance, by the Ohio Foundation of Independent Colleges for the 1953-54 year to help defray operating expenses.

The Foundation, which has secured nearly a million dollars from leading Ohio business and industrial firms since 1951, is comprised of 22 Ohio colleges not supported by taxes.

According to Dr. Harold L. Yochum, foundation chairman and president of Capital University, this year's gift to Union brought this three-year total to \$42,565.28.

Vice President Ronald G. Weber of Mount Union, in expressing his gratitude for the gift said, "OFIC money this year has been used for current operations, to help balance the budget. It has enabled us in a period of financial difficulty, because of relatively low enrollment, to strengthen a faculty salary program."

Statehood For Hawaii, Alaska Out This Year

WASHINGTON (AP)—Any lingering possibility that Congress would vote at the current session to take Hawaii and Alaska into the Union as states was wiped out late yesterday.

The House Rules Committee, by voice vote, decided against sending separate House and Senate bills to conference to iron out differences.

Women's Business Empire Falls With Suspension Of Newspaper

IRONTON, Ohio (AP)—From waitress to bank president is the story of Mrs. Fronia Sexton, 62-year-old grandmother whose small business empire here appeared to collapse yesterday.

The Ironton Courier, which she

founded 13 months ago, suspended daily publication yesterday, a few weeks after she was arrested on a charge of embezzling \$114,000 while president of the Citizens National Bank here.

Her son, A. J. Sexton Jr., said the newspaper was unable to meet current costs of operation. He spoke for the Ironton Publishing Co., which Mrs. Sexton headed.

Located In Theater

The Courier plant was located in a converted theater building, part of Mrs. Sexton's real estate holdings. It published its first issue June 29, 1953.

Mrs. Sexton resigned as president of the bank the day after her arrest, was freed on bond and now awaits federal court action at Cincinnati.

After her arrest, she stayed secluded a few days in her apartment, then moved into the only executive office at the Courier to see if she personally could make it survive.

5 Editors Used
Five editors and two general managers had been utilized during the Courier's fight for existence—for a while against two other daily papers in this Ohio River town with a 16,333 population.

Deeds and mortgages to her holdings were turned over in trust to the American Surety Co., which repaid the bank's loss.

Included in the transfer were the Courier plant and the Ro-Na Theater, which she operates, plus other real estate.

Her attorney said a "substantial" cash payment also was made.

Frugal and decisive, Mrs. Sexton began her business career as waitress-operator of a small cafe near the railroad tracks in Russell, Ky., across the river from Ironton. This was in the 1920s.

Built Theater Chain

She expanded her holdings into Ashland, Ky., and Ironton, where she built up a chain of theaters, office buildings and a restaurant. She was responsible for building a new business section on Third St., Ironton's main thoroughfare.

She became president of the Citizens National Bank and then decided to publish a newspaper.

Hard-working and independent, she worked days at the bank and evenings at her Ro-Na Theater. Her husband, Ron, is retired because of poor health.

During the Courier's battle for circulation, it merged three days with its morning competitor, Mrs. Ironton Daily News, then withdrew back to single publication Aug. 4, 1953. On Nov. 14 that year, the Courier absorbed the News. It remained in competition with the Ironton Tribune, an evening daily.

Her son said the Courier may become a weekly newspaper. Its 34 employees were notified yesterday of the suspension.

French, Rebels Cease Firing In Indochina

HANOI, Indochina (AP)—The French and the Vietminh ordered firing stopped in part of Indochina today — 7 years, 7 months and 8 days after Moscow-trained Ho Chi Minh's rebel legions attacked Hanoi.

The truce negotiated at the Geneva conference became effective in North Viet Nam and its rich Red River delta at 8 a. m. (8 p. m., EST, yesterday).

The armistice is scheduled to spread gradually over the four other sectors of the war-ravaged Southeast Asia land, becoming effective on Aug. 1 in Central Viet Nam, Aug. 6 in Laos, Aug. 7 in Cambodia and Aug. 11 in South Viet Nam.

Hanoi's big guns roared sporadically throughout the night before the cease-fire became effective and the Vietminh hept up pressure on outlying posts manned by Vietnamese units. In recent days the Reds have concentrated on such posts in an apparent effort to encourage desertions and prevent the native troops from moving south with the departing French.

There were no early reports, however, of any large-scale fights in the last hours before the truce time.

There was no certainty that the killing and wounding had stopped in North Viet Nam.

This was a cease-fire, not a signed peace.

Mines sowed along the roads and paths and in the rice fields may take their toll for months.

No one could be certain that all the thousands of Communist-led Vietminh guerrillas or all the irregulars loyal to the French-supported Viet Nam government had received the stop-fighting word or would obey it.

Many observers believe it will be a matter of only two to four years before communism engulfs all of Viet Nam and perhaps Laos and Cambodia as well.

The cease-fire agreement provides for internationally supervised elections in July 1956 to unify Viet Nam. The French commander in the North, Gen. Rene Cugny, said recently he believed South Viet

Arkansas Elects Senator Today

McClellan Opposed By Ex-Gov. McMath

LITTLE ROCK, Ark. (AP)—Sen. John L. McClellan, who two years ago participated in the defeat of Sid McMath for a third term as Arkansas governor, today meets the challenge of McMath for his own job.

McMath and another candidate, Paul Chambers, Arkansas' Democratic national committeeman, are attempting to oust McClellan from the Senate seat he has held for nearly 12 years. A fourth candidate, Leonard Ellis, did not campaign.

If no candidate gets a majority of the total vote cast in today's Democratic primary, the two top men will meet again in a second primary two weeks hence.

In Arkansas, Democratic nomination is equivalent to election. McClellan, senior Democrat on Sen. Joseph McCarthy's Senate investigations subcommittee and in that role familiar to television audiences during the recent McCarthy-Army hearings, campaigned mainly on his 12-year record and the prestige he said his seniority gave.

McMath attacked him as a "Democrat in name only," a Republican and an errand boy for "Texas oil millionaires" and "the power trust."

Chambers declared both his opponents represent special interests—McClellan "big business" and McMath, organized labor—and that only he could represent "all the people."

Besides McClellan, Rep. Oren Harris of El Dorado in the 4th District is the only member of Arkansas' all-Democrat congressional delegation opposed for re-election.

Gov. Francis Cherry, who beat McMath two years ago with the active support of McClellan, also has three opponents for re-election: Orval Faubus of Huntsville, State Sen. Guy Jones of Conway and Gus McMillan of Sheridan.

Polls open at 8 a.m. CST, and close at 6:30 p.m.

SEARCH FOR ASSAILANT
CLEVELAND (AP)—Police were searching today for the assailant of a 45-year-old social worker, who was beaten in her office with a paving brick inside a paper bag. Miss Eleanor Bonham, director of the University Settlement, was in satisfactory condition at St. Alexis Hospital. She told police the man had visited her previously requesting that his 6-year-old daughter be sent to a summer camp. He returned yesterday, while Miss Bonham was alone in the office, and inflicted deep gashes in her head.

Murder Inquest In Adjournment

Miss Hayes To Testify; Lawyer Is Ejected

CLEVELAND (AP)—The schoolhouse inquest into the Marilyn Sheppard murder was in adjournment today, and the next developments appear to lie with the arrival of Cleveland's ace homicide sleuth and the promised arrival of a pretty friend of the victim's husband.

The inquest, held in the Normandy School auditorium in suburban Bay Village and attended by flock of women and girls garbed in shorts and sundresses, was adjourned indefinitely yesterday afternoon by Coroner Samuel R. Gerber.

Shortly before that, the coroner had ejected from the proceedings the attorney for Dr. Samuel Sheppard, the handsome osteopath whose wife was found bludgeoned to death in her bed the morning of July 4.

Capt. David E. Kerr, head of the police homicide bureau, entered the scene for the first time yesterday when he returned with his wife and two children from a vacation in Cuba.

Kerr immediately criticized the way the Bay Village authorities handled the case before the Cleveland police department took over last week. He told reporters Dr. Sheppard should have been held for questioning right after the slaying was discovered. As it was, the osteopath spent most of the three days following the murder in a hospital, undergoing treatment for injuries he said were inflicted by a man who killed his wife.

The Bay Village police chief, John P. Eaton, said he had no comment to make on Kerr's statements.

Later, Cleveland's police chief, Frank W. Story, announced he had accepted an offer by 24-year-old Susan Hayes to return her from California for questioning in the slaying.

The name of Miss Hayes, a laboratory technician who formerly worked in Bay View Hospital in Bay Village, came up frequently in the three days of testimony at the coroner's inquest.

Last March Dr. Sheppard and his wife took a trip to California. Mrs. Sheppard spent about 10 days of that period as a guest of the ranch of Dr. Randall J. Chapman, a Los Angeles osteopath. Dr. Sheppard was in Los Angeles, about 30 miles away, taking post graduate courses.

Both Dr. Sheppard and Miss Hayes have told police they saw each other during that period, but denied they were intimate.

An assistant Cuyahoga County prosecutor, Thomas Parrino, who went to Los Angeles to question Miss Hayes has said there are several inconsistencies in the version of her and Dr. Sheppard as to their relationships. He declined to elaborate on this, but said her story "changes the picture" in important ways.

Testimony at the inquest yesterday included statements that Dr. Sheppard had talked about a divorce last March and that a physical examination did not show him to be seriously injured after his wife was slain.

William J. Corrigan, one of Cleveland's leading criminal lawyers, was the attorney who was removed from the proceedings yesterday. He had twice clashed with the coroner over what was being taken down by a stenographer for the record.

Gerber, who had maintained Corrigan was there only as a spectator since none of the witnesses was represented by counsel in the inquest, snapped "put him out" to end the second argument. A policeman and a deputy sheriff performed the deed and Corrigan later told reporters he was "going to sue those responsible for this."

Spectators cheered as Corrigan was dragged out of the room. Women converged on Gerber, and several hugged him when he recessed the hearings.

Soldier Arraigned For Bank Holdup

ZANESVILLE, Ohio (AP)—First Sgt. Anthony Modock, 34, a 14-year Army man, was arraigned here yesterday on a federal bank robbery charge only 2½ hours after Cumberland branch of the Cambridge Central National Bank was robbed of \$14,150.

He pleaded innocent and was held under \$25,000 bond for a federal grand jury.

State Highway Patrol officers said they found \$13,710 in the trunk of a car parked on the farm where Modock was captured. He was at the farm of his brother, Steve Modock, near Buffalo in Guernsey County. The patrol said another \$400 was found in the sergeant's pockets.

Sgt. Modock, on leave from Ft. Knox, Ky., is married and the father of three children.

Bank employees said a man entered the bank and asked for a loan, then took the money at gunpoint, and forced four employees into a bank vault.

Blind Cyclist Strikes Pedestrian, Sells Vehicle
SAN FRANCISCO (AP)—Ronald Carlos Taylor, 25, always wanted a motorcycle.

He had an opportunity to buy one from a friend last week, one that could do 10 miles an hour. The fact he has been drawing the full state pension for the blind eight years didn't deter him. He bought it.

He rode several interesting blocks before he made a left turn and ran into Miss Barbara Murphy, 25-year-old pedestrian.

Yesterday, Municipal Judge Charles Peery gave Taylor a 30-day suspended sentence for driving without a license, 30 days suspended for violating a pedestrian's right of way, and six months on probation.

Taylor sold the motorcycle.

Ohio National Guard Gets Top Notch Rating

COLUMBUS, Ohio (AP)—Maj. Gen. Leo M. Kreber, commander of Ohio's National Guard 37th Infantry Division, reported today that the division had been given "top notch" ratings from a regular Army inspection team.

The inspection was carried out during a summer field training period which ended Sunday at Camp Perry.

Of the 104 units in the division, five were rated superior, 94 excellent and five satisfactory, Gen. Kreber said.

Judge Orders Mother To Wean Her Baby

LONG BEACH, Calif. (AP)—A young mother has been ordered by a judge to wean her baby.

Mrs. John C. Honeycutt and her husband pleaded guilty last month to forging 30 checks totaling \$700. They claimed they used the money to buy food and medicine for their daughter Debra, 5 months old.

When Mrs. Honeycutt told the court yesterday she was breastfeeding her baby, Superior Judge Joe Rayercraft ordered her to put the child on a bottle and return Aug. 9 for sentence.

Banker's Trial Opens For Embezzlement

CLAYTON, Ala. (AP)—Ex-banker Royall Reynolds, whose disappearance last March brought sleepy Clay, Ala., awake with a start, goes on trial today on embezzlement charges.

Reynolds' disappearance tied up funds in the now-defunct unchartered Merchant's Money Exchange at the critical spring planting period. He returned two weeks later. An audit showed a \$75,000 deficit in the bank's funds.

A citizen's committee agreed to accept a settlement under which depositors would get back all except about 10 to 15 per cent of their money. Reynolds liquidated all his personal holdings and his relatives chipped in to make up all except about \$9,000 of the deficit.

Ex-Village Girl
Wed In FloridaClyde Yarians Attend
Daughter's Marriage

COLUMBIANA - Mr. and Mrs. Clyde Yarian of Middleton Road, attended the wedding of their daughter, Mrs. Wanda Bieber of North Miami, Fla., and A. Andrew Orrei, son of Mrs. A. Orrei of Newark, N.J., and the late Mr. Orrei, which took place at 4:30 p.m. Saturday, July 10, in Christ Lutheran Church, North Miami, the Rev. A. E. Gysen officiating for the double-ring ceremony.

The bride, given in marriage by her father, wore white chantilly lace over satin with chapel train. Her headpiece, fashioned of pearls and rhinestones, held the finger-tip veil of illusion. Lace gauntlets and a spray of white orchids completed her costume. Mr. and Mrs. Edward Panerello were their attendants, and the bride's sons, Paul and Leonard Bieber, ushered.

Mrs. Orrei is a member of the women's division of the North Miami Chamber of Commerce, the North Miami Elementary School P.T.A., and the Welcome Wagon Newcomers' Club of North Miami-Biscayne Gardens. She is a graduate of Fairfield Centralized High School here. Mr. Orrei is a graduate of the New York School of Interior Decorating, and is a consulting decorator. He is a member of the North Miami Chamber of Trade Lodge and North Miami Chapter, Disabled American Veterans.

The newlyweds are at home at 13550 N.E. Seventh Ave., North Miami.

Mr. and Mrs. Yarian were accompanied by Florida by Mr. and Mrs. P. H. Schaffer of Columbiana.

MAJOR ROLLO CONLEY, Fairmont, W. Va., attorney, who spent his early life in Columbiana, was at the Park Hotel from Friday through Sunday to participate in the tour of spots of historical interest in town and vicinity Sunday afternoon by the Historical Society of Columbiana and Fairfield Township, of which he is a member. Major Conley served in the Spanish-American war with the 10th Pennsylvania in the Philippines and in World War I. He retired with the rank of major in the U. S. Army.

Members of Brownie Troop 2 of the Methodist Church, Mrs. Lawrence Davis, leader, are in camp in Pavilion 4, Firestone Park, from last night until tomorrow morning.

Columbiana Business & Professional Women's Club will have its picnic in Pavilion 1, Firestone Park, at 6:30 p.m. today, when Khair Mohd Khan Jamali, Moslem farmer from Pakistan, who is spending the summer in this vicinity, will be the speaker. Members are to take covered dish and table service. Rolls, butter and beverage will be provided.

Cub Pack 17, Boy Scouts, of the Presbyterian Church has a fishing trip scheduled for tomorrow evening, which will be its July meeting. Cubs will meet at the church at 7 p.m. to go to Stevens' pond, east of town on Route 7. They have been having Monday night swimming parties at the park pool this month. Regular pack meetings will be resumed next month under the direction of den mothers. Thomas Brown is cubmaster.

The King's Daughters' class of Grace Evangelical and Reformed Church will have a picnic in Candel's woods, east of town on Route 7, at 6:30 p.m. Thursday. Members are to take covered dish and table service. Rolls, butter, coffee and cream will be provided. Mrs. Laura Ross, Mrs. Ruby Wolfgang and Miss Nellie Koch will have charge of entertainment. The committee is Mrs. Bertha Myers, Mrs. Ina Candel and Mrs. Effie Knopp.

President John L. Hutson and Harry Eberhardt of the Columbiana Rotary Club will attend the meeting of the newly organized club in Lisbon this evening. Mr.

7 HURT IN BLAST

IRONTON, Ohio (P)—An explosion and fire at the Allied Chemical and Dye Co. plant in nearby South Point injured seven employees yesterday. The company would not release a list of injured but the State Highway Patrol said none of the seven was hurt seriously. A split cylinder on a compressor was blamed for the explosion.

Mrs. Herron Winner
In Guilford Contest

The sewing and baking contest July 17 at Guilford Grange was judged by a committee of three Lisbon Grange women. Mrs. Thomas Pike read the names of the contest winners naming Mrs. William Herron in first place with her house dress entry and also her nut bread.

In the juvenile grange Miss Lynn Clewell received first prize for her blouse and her sister, Becky, won first prize for the doll dress she made.

The juvenile poster contest will be held at a later date. The juvenile matron urged the children to complete their posters and their games project.

Guilford's third and fourth degree team conferred degrees upon a large class of candidates and the new members were welcomed into the grange.

The degree team accepted an invitation from Butler grange where they exemplified the third and fourth degrees in full form upon a class of six candidates July 20.

Inspection will be made by Deputy and Mrs. Roger Stafford at the meeting of the grange Saturday.

Peron Wants Press

Competition Sharpens As Firms
Battle For Consumer Dollars

NEW YORK (P)—Competition is sharpening up in the dog days. Business management is getting in some of its heaviest licks now, fighting for the most favorable position possible in the fall.

It all makes the consumer look pretty well off.

The year of the "hard sell" is bringing no-quarter battles within industries, and between industries. It's back of many of the mergers of the day. It leads to pleas to Congress for relief from some forms of competition, and to federal regulatory agencies for bans on "unfair" competition.

Capacity to produce more than the present market needs lights the fire under most of the competition for the consumer's dollar.

The auto, steel, oil, textile and television industries are examples.

Battles over competing ways of doing things are another phase. Examples are: The struggle for bottles, cans and cartons for food and beverage distribution; and the attempt of the railroads to compete with trucks by carrying truck-trailers piggy-back on flat cars.

To-the-death competition in the auto industry has led to three mergers among the smaller companies and to talk of still more combining to come. One aim was to strengthen the dealer set-ups of the merged companies, since dealer systems are the backbone of sales.

The dealers themselves have been in bitter competition. The cries over "bootlegging" of new cars at used car prices were carried all the way to the U.S. Department of Justice.

In the oil industry, competition has been somewhat tempered by the state regulation of output. But the small companies and the large ones without oil fields in other lands are protesting at the better competitive situation of the oil giants with foreign oil to import.

Tariff battles are heightened, also, by growing competition in other industries. In the postwar years of the "easy sell" the tariff question was let lie. Now the demand for protection increases in proportion to the step-up in competition for the consumer's dollar.

Steel merger rumors also seem to stem back to the increasing competition in that industry. The bigger, diversified companies have the best competitive position for sales and profits, now that the

The Right To Talk

The Senate filibuster on atomic policy, like all the filibusters that have gone before it and all the ones that will come after it is illogical and irritating.

But like its predecessors and its successors, it is part of the wonderful system of government by representation. The right to talk a legislative proposal to death if it can be done is a safety valve for voluntary government. The U. S. Senate has cherished and preserved the right to filibuster. Without many differences to encourage the growth of Tennessee Valley perennial issues would have been head-on collisions.

Atomic policy is one of the major issues that will come before Congress in the second half of the 20th century. The Senate filibuster is a demonstration of dissent from the Eisenhower administration's claim that the Atomic Energy Commission should not be obligated in any way to encourage the growth of Tennessee Valley Authority.

This marks a reversal of New Deal-Fair Deal policy.

While the technical issue on which the filibuster is based is not a clear reflection of the difference of opinion between the advocates of private and public enterprise in the production of energy, the issue between the filibusterers and their opponents is sharp and exact. They are split between public and private control of energy.

The public ownership crowd wants to hog-tie the Atomic Energy Commission. It wants to encourage the production of public power and discourage private enterprise in the power field. It is playing for the highest stakes in history—all energy, nuclear fission.

The Eisenhower administration has the votes to win for private enterprise. It has the votes, the ultimate control of the ultimate source of to close the "talkathon" when it has lasted long enough to demonstrate to everybody's satisfaction there has been no muzzling of the opposition—that the right to talk has not been abridged.

Farm Problems Pile Up

It is generally agreed that price supports in some form are needed for farmers. But it is interesting to note in congressional debate how the subsidy program itself injects uncertainties into agriculture.

One man-made factor reacting on the law of supply and demand is diversion of acreage from one of the staple parity crops to some other crop, thus upsetting the market for the second crop. By trying to ease a surplus of one crop, the government could induce a surplus in another.

Storage also looms as an extra hazard in the price-support picture. To qualify for crop loans, farmers are responsible for storing the crops, which serve as collateral for the loans. Farmers without storage space have to sell on the unsupported market. In 1953, such sales brought only 82 per cent of parity, whereas government loans guaranteed 90 per cent of parity for stored wheat.

Commodity Credit Corp. offers loans up to 80 per cent of costs for four years at 4 per cent interest to farmers and commercial firms for construction of storage space, plus special tax concessions. The storage construction loans are designed to facilitate crop loans.

Secretary of Agriculture Benson has warned, "With average weather, 1954 production—added to all-time record carryovers of former crops can mean the most serious storage problems we have ever faced."

No Sour Grapes

There has been a Miss Universe chosen at Los Angeles and Miss America will be chosen at Atlantic City in a few days. These beautiful creatures gladden the pages of newspapers and brighten news reels, but one can wonder about the pretentious titles bestowed on them.

The symbolic Miss America is a well scrubbed young woman with an attractive hair-do and a strong sense of purpose in being alive. She does not think of herself as a professional or even a semi-professional beauty but confesses to being pleased when she is told that she is good to look at, although the chances are she is more interested in being pleasant to be with than to look at.

The symbolic Miss Universe meets about the same specifications as the symbolic Miss America. This does not deny that the young women chosen to hold these pretentious titles do not meet the specifications. It merely suggests that nothing is so absurd in a world full of fine-looking women as to dish out titles like Miss America and Miss Universe. There are hundreds of thousands of them, not just two.

Acid now is being taken out of radiators. Let's find a sure way to keep it out of drivers.

Every motorist is courting bad breaks when he drives with them.

Phony Liberalism

By DAVID LAWRENCE

Filibuster Obstructs Constitutional Processes

Conduct "unbecoming a United States senator" and which "brings the United States Senate itself into disrepute" has just been witnessed by the American people as they have watched a group of senators in the minority striving to impose their will on a frustrated majority.

Where is the resolution of "censure" for the senators who use "methods" that override constitutional ethics and the rules of fair play and seek to prevent the passage of laws through a contest in physical endurance, with all-night sessions, prearranged relays of speakers and unlimited debate in what is known as a "filibuster"?

For several days now the Congress of the United States has been unable to function on a legislative program involving billions of dollars of appropriations and on measures of far-reaching consequence to the welfare of the people.

The accumulated damage allegedly done by Sen. McCarthy, in his brusque handling of persons accused of having Communist connections, is infinitesimal compared with the damage done by the "filibuster" of the last several days not only to the public business but "to the prestige of the Senate itself, both here and abroad."

THE "FILIBUSTER" is just a palpably dishonest device whereby a roll call vote, desired by the majority, is prevented through the incessant speechmaking of the minority, who hope by these tactics to force the majority to yield lest other bills—also sought by the majority—be sidetracked or lost if they do not come to a vote before the end of the session.

No piece of legislation was ever so bad that it couldn't be passed, be promptly repealed or amended when subsequent experience shows its errors. Hence no "filibuster" is ever justified in a constitutional democracy.

Who were the senators conducting the latest "filibuster"? Did they come from the ranks of the "wicked reactionaries"? On the contrary, the group which has been engaged in the longest "filibuster" in the history of the Senate is composed primarily of so-called "liberals"—the men who usually prate about constitutionalism and the "rights of the people" and about the "methods" of those who, they claim, are transgressing constitutional rights and trying to bring about "thought control" and "conformity of thought."

"Filibustering" itself, of course, is not unconstitutional any more than is browbeating of witnesses before congressional committees or using the floor of Congress to call citizens "liars" and other epithets under cover of congressional immunity.

WHEN THE SO-CALLED "liberals" use disgraceful "methods" and get big headlines and their pictures in the newspapers as participants in a "talkathon," there are, strangely enough, no resolutions

of "censure" introduced nor any telegrams gathered by public relations firms from lists of prominent people to clamor for the punishment of these obstructionists.

There is always a plausible excuse given by the "filibusterers." This time it is that they wish to prevent what they call a "give-away" of certain atomic energy developments by the government to private industry, though government-owned channels in radio and television have long been awarded to private companies which make profits thereon.

It's an age-old controversy between government ownership and private ownership, between state socialism or communist socialism and private enterprise.

The steady pressure for an all-powerful state, in which a political bureaucracy shall dispense favors to its political henchmen, has never let up since the New Dealers and Fair Dealers began to apply the scheme in various pieces of legislation.

The American people are really behind President Eisenhower in his drive to get the government out of business and to give the people the opportunity to earn their own living and to conserve their savings and invest them in business enterprises, but the minority in the Senate uses the specious argument that the issue isn't "fully understood"—as if the voluminous record of millions of words spoken in several days of continuous debate will ever be read by anybody except the official stenographers.

THE ISSUE is well understood already. It is the difference between freedom of initiative and the stifling of initiative, between private enterprise and government ownership or control of every business, every retail store and every doctor's office, with no incentive to service and no competition to insure the quality of the product at the lowest price.

Irrespective of the merits of this question, if the majority is ready to vote, why should the coercive tactics of a group of senators with strong lungs defeat another group which apparently must appease them or else allow a whole legislative program to be wrecked?

Is there anything which is more deserving of the "censure" of the people than unfair methods used in blocking legislation needed to promote the welfare of tens of millions of persons—their tax benefits and their social security gains and their measures of national defense, all of which have been delayed by a phony "liberalism" and an unconscionable abuse of senatorial privileges?

Will there be any resolutions of "censure" introduced now? Of course not—for these evidently are reserved only for one senator who, sometimes with a bit of excessive zeal, fights the communistic influences in our government and our institutions which, if successful in their penetration, can make a shambles of individual freedom and democracy itself.

Dedicated Lives

By TRUMAN TWILL

Frequently, you hear it said that the members of one or another occupational group are "dedicated."

This means they regard what they are doing as of such singular importance that they will keep on doing it come hell or high water. It means they are more interested in their work than in the money they earn. They have no hope of profit.

School teachers, for example, are often spoken of in this manner, to explain why so many of them continue to do something that they know will not give them much more than a subsistence. It is pointed out that they are like preachers in that respect. No one becomes a preacher to make a financial killing. Men go into the ministry because they regard it as something to which they can dedicate their lives with no misgivings.

Besides preachers and school teachers, there are some other occupations that call for a spirit of dedication. Men who are willing to endure the rigors of education at Annapolis and West Point to qualify for officer rank in the professional navy and army—and in a few more years the professional air force—have a sense of dedication. There is no money in it and usually no glory.

Social workers don't go gunning for either money or glory. If they are good ones, they have an inner compulsion to follow the example of the Good Samaritan—to patch up the damage done by unexpected collisions between hard realities in a world with a mighty narrow margin for human error.

Most of the people who are called scientists draw on a sense of dedication to rationalize their existence. If they are any good at what they are doing, they must have an attitude of detached selflessness which rivals that of the traditional country doctor, who dedicated his life to healing so completely he eventually lost it in the service of his fellow men.

Artists and writers are famous for their doctrine of dedication, although it may be suspected that

in some cases they are equally dedicated to the proposition it is possible somehow to live without physical exertion.

Scholars who carry on exhaustive research into special fields of knowledge are dedicated to the advancement of knowledge in a world that they feel to be held back and slowed down by ignorance.

Every trade and every skill has its dedicated people—men and women who have made up their minds they would rather do one particular thing well than anything else under the sun.

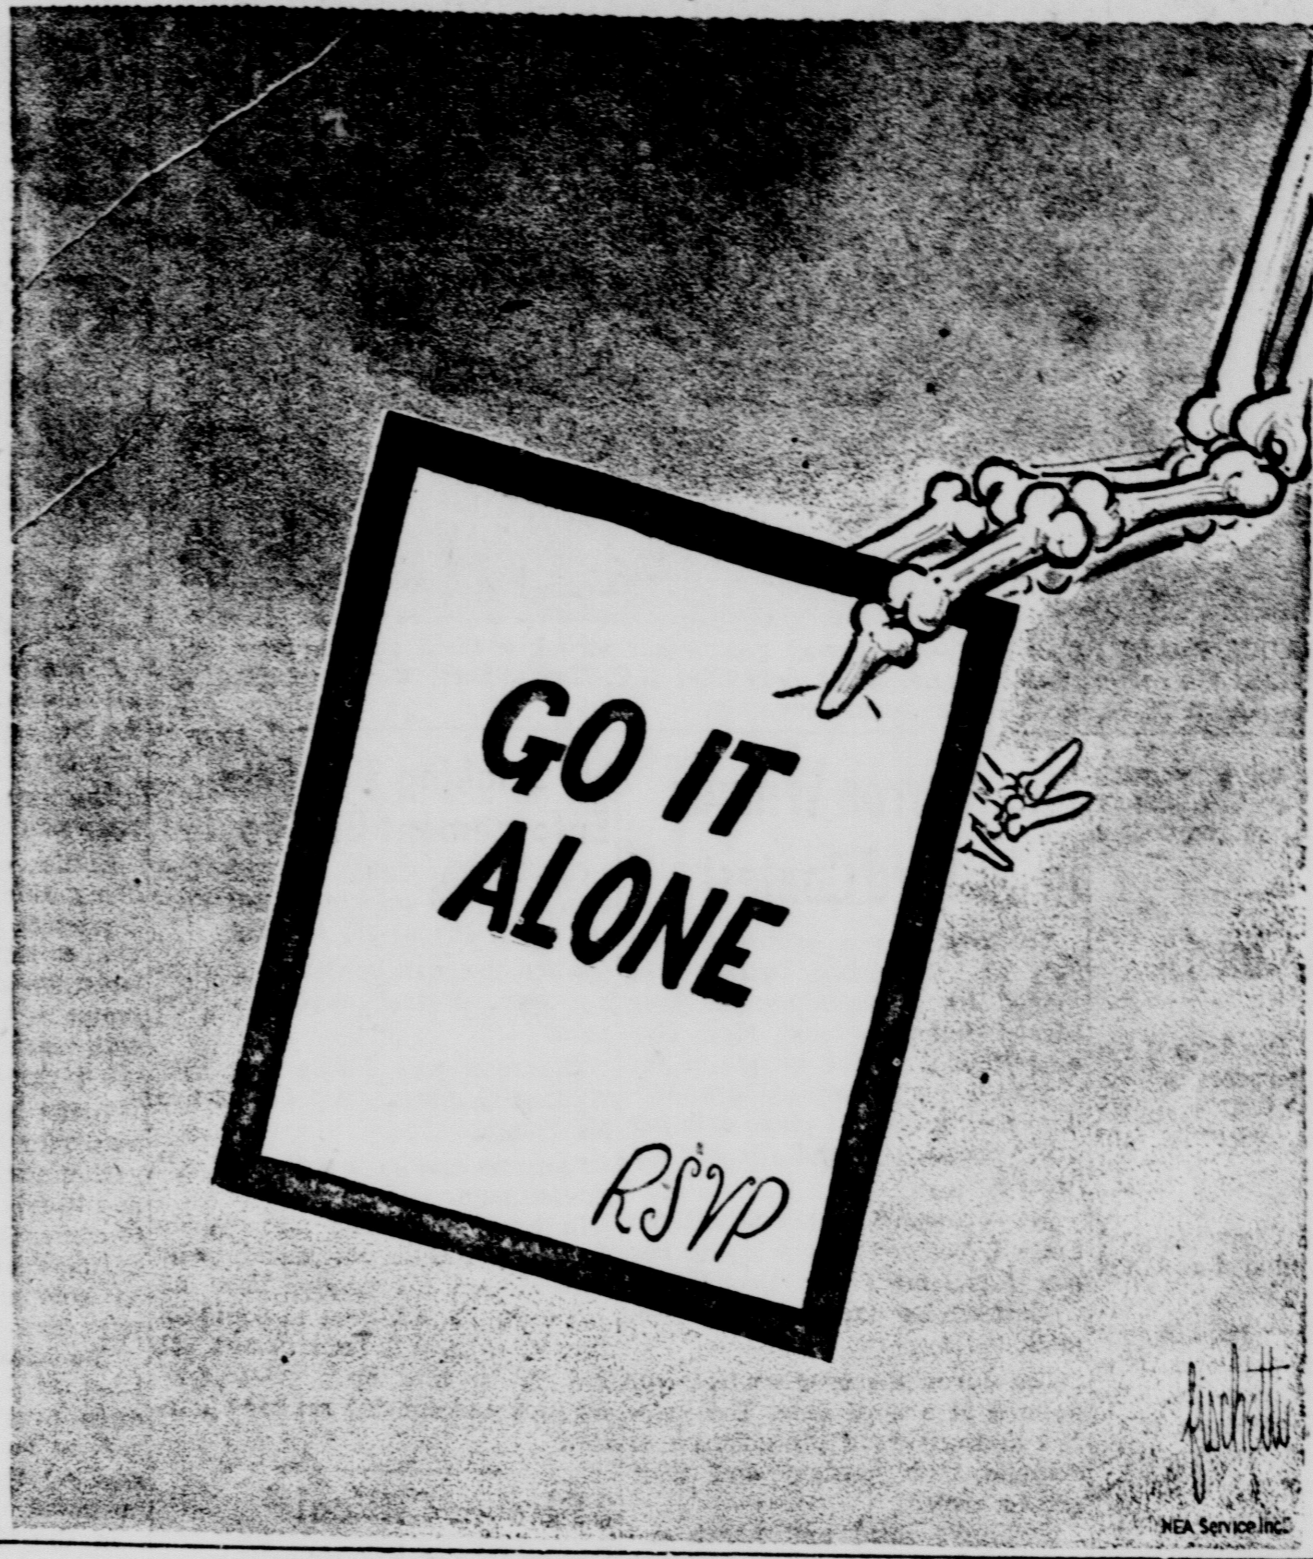

It would be a pretty drab world to live in if they weren't around to brighten it up.

By GEORGE E. SOKOLSKY

"The Reporter," a magazine owned and edited by Max Ascoli, who arrived in this country some time in 1931 on a grant-in-aid from the Rockefeller Foundation, has published an astonishing article on Sen. Styles Bridges. This issue of "The Reporter" boasts 40 pages of copy; the article on Sen. Bridges consumes 14 pages which is a big slice of any publication.

Perhaps Bridges deserves 35 per cent of this issue of this magazine, but when it was discovered that for some reason the state of New Hampshire was blanketed with copies, one wonders what was the interest and who spent the money for the free distribution.

True, Bridges is a candidate this year for re-election to the United States Senate of which he is president pro tempore, a high office, fourth in succession for the presidency. As it is expected that the Republicans will renounce him and that his re-election is assured, one wonders why all this excitement, particularly as the article is altogether uncomplimentary.

APPARENTLY, Bridges' greatest crime, according to "The Reporter," is: "A lonely Republican internationalist before the outbreak of the second World War, he has in the main voted silently for the major postwar foreign policy programs while at the same time endorsing nearly every crippling amendment dreamed up by such senators as Kern, Jenner, Dirksen, Welker—and by himself. He has regularly voiced deep discontent with some of America's allies in Europe, but has pledged undying support to the exiled government of Chiang Kai-shek."

Who does not voice discontent with some of America's allies in Europe? I have heard something of the sort recently from President Eisenhower. Vice President Nixon, Secretary of State Dulles, and Majority Leader Knowland.

By Galbraith

If it is a crime to ask why France has delayed ratifying the EDC treaty, it is a crime to object to seating Red China in the United Nations, then our highest officials have committed the same crime that Bridges has.

One wonders, if it is so wrong to support "the exiled government of Chiang Kai-shek," does "The Reporter" want the United States to take to its bosom the Communist government of Mao Tse-tung?

Do the editors of this publication expect an American, such as Bridges is, to support Communism anywhere? Why should he when their armies intervened in the Korean War to murder our sons?

BRIDGES HAS been a tower of strength to the Republicans in the Senate, particularly after the death of Robert A. Taft, because his personality is such that he has often been able to quiet down the quarrelling factions and personalities in the party.

It is no secret that he has played this useful role. "The Reporter" article describes this in the following language: "Probably the main reason for the obscure character that Bridges has retained during his many years in the Senate lies in the nature of the specialized political field in which he has achieved his greatest eminence. The reputation of a manipulator of political influence is not susceptible to standard publicity gimmicks. Such a man must pursue hidden paths, conduct his negotiations in inner rooms, speak

in the halftones of suasion and threat."

From this introduction to Bridges' faulty thinking, the article proceeds in minute detail to discuss all of the favors that this senator may or may not have done for constituents or citizens for whom he may have intervened.

SOME ARE important and interesting; some are trivial. I should like to devote what space remains to me to refer to Chapter VIII of the article, entitled "China Lobby, New Hampshire Div."

Of course, there is no China Lobby. Alfred Kohlberg, an American merchant and manufacturer who loves China, started this nonsense by denominating himself "The China Lobby" and demanding that he be investigated which no one does because Kohlberg spends his own money fighting Communism.

He is also president of the American Jewish League against Communism, to which he contributes abundantly.

It so happens that Sen. Bridges opposes Communism in China as anywhere else and therefore Kohlberg favors Bridges as he does everyone who opposes Communism.

"The Reporter" says: "Over the years since the Second World War, Sen. Bridges has developed with increasing fervor the theme of treason at home as an explanation for disaster in Asia."

Did Max Ascoli ever hear of Alger Hiss?

Dems Short Of Issues

By JAY G. HAYDEN

The Senate filibuster against President Eisenhower's atomic energy bill is due mainly to a desperate need of the Democrats for new issues upon which to contest the November congressional elections.

The trouble is that the planks upon which the Democrats' high command confidently expected to reclaim both houses of Congress have been fading, one after the other.

The latest in the line is the removal of what the minority leaders had counted as a made-to-order foreign-policy issue by the accomplishment of an Indochinese truce with the U.S. refusing to sign.

Ever since the fall of Dien Bien Phu, Democrats in Congress have been charging the Eisenhower administration with responsibility for this defeat, although with a notable conflict of justification for this contention. Some of the complaints have asserted that Secretary Dulles tried his best to put the U.S. into a shooting war and was prevented from doing so only by French distaste for such intervention and complete refusal of the British to go along.

OTHERS HAVE SAID that Secretary Dulles first tried to scare the Communists with a bluff and then ran out on the French in their moment of extremity.

Whatever the reception of these arguments by the American voting public in April, it is now conceded by all hands that ending of the Indochinese war has made them not worth a hoot as campaign fodder in November.

By next fall, rather the arrival of peace all around the world through the successive cease-fires in Korea and Indochina may loom as the best of all talking point for Republican candidates.

Long before the Indochinese peace another prime Democratic

hope had turned sour due to the failure of a prophesied economic depression to eventuate. Led by Sen. Douglas, the ex-economist professor from Illinois, Democratic spokesmen until recently seized every opportunity to proclaim that the country was going to the dogs and that Republican cutting off of government buying and doles was to blame.

That line of argument turned into a boomerang for the simple reason that the American people refused to board the toboggan set for them.

Despite a reduction of 7.5 billion dollars in government purchase of war goods, employment in June totaled 62,098,000 as compared with the all-time peak of 63,408,000 registered in August, 1953. Up to July 1 this year gross national production was exactly level with the 1953 annual rate of 265 billion dollars.

THERE ARE SOME weak spots, chiefly the centers of largest military production, where unemployment may cost the Republicans votes, but remarkable over-all prosperity and stability prevails. Instead of losing votes on economic grounds, such things as tax reduction, now certain to exceed 27 billion dollars on returns for this year and removal of all price and wage controls have made this one of the very best subjects for Republican appeal to the electorate.

Almost as discouraging to the Democrats as the general economic improvement is a confusion of farm sentiments indicative that winter-book hopes of a duplication of President Truman's spectacular 1948 gain among the agriculturalists are not going to be realized.

The reason the atomic energy bill has been picked on is that the Democrats see it as a means of dramatizing the issue of public vs. private electric power development.

Once Over

Mother Knows Best

With Victor Borge, a piano player, passing the \$500,000 mark for a one-man performance and with Liberace, another pianist, getting more gold than Fort Knox as one of the entertainment world sensations of all time, it seems to us that at last a signal victory has been won by Mothers-Who-Forced-Kids-To-Take-Piano-Lessons. A lot of hard feeling and even bitterness has had to be borne by these mothers through the years.

There has been deep criticism of them for making Junior stay in and take his lesson from Prof. Speededorf while from outside came the cries of "Hey, it's my turn at bat," "Put it here, Red!" and "Shuddup, I can run you out by a mile." But mommies have been vindicated as self before by the Victor Borge/Liberace triumphs of the piano over the Ringling Brothers Circus and "Oklahoma."

We also see a victory over the jukebox, the phonograph and all forms of canned music. The piano may even be coming back, a fact which frightens all kids up to the point where you point to Liberace and Borge, their income tax and their take-home pay after everybody has had a cut.

Mom tried to get us to take piano lessons as a kid, but we fought the issue to a finish, even hiding in the woods for a week or so. We have since wondered why we were so foolishly obdurate. But now it is all clear—we grew up in the BLB Era (Before Liberace and Borge). The best piano player could do then, it struck us, was to make the Poli vaudeville orchestra, play at the Music Hall dance or get invited to parties only because there were no other piano players in the neighborhood.

We belonged to the great small fry fraternity of kids opposed to piano lessons, and now we know the reason. Mother never knew the importance of a wisecrack and a comedy routine, and there wasn't a piano teacher anywhere who could halt the lessons now and then for some ad libbing and general development of the vaudeville routine.

Prof. Speededorf was a dour man who didn't have a gag in his system. He just wouldn't stand on his head or take a pratfall for a laugh and would have blown his stack at any suggestion. There was a great future in the piano playing profession if you could work the old masters into a sure-fire comedy routine, fall off the piano stool now and then and perhaps appear in a lily-white suit.

Today, there can be no doubt that fame and riches are yours if you can build piano playing into an act which has all the amusement-world appeal of a water carnival, a revival of vaudeville and farewell tour by Jimmy Durante.

We sell the possibilities of a situation where Little Willie will come running to mother imploring, "Mumsie, can't I PLEASE have my piano lessons five days a week instead of one?"

James Cochrane, said to be the oldest saloonist in America, has sold his Milwaukee place after 72 years in the business and he takes us away back with his nostalgic statement, "There was a time when beer was a nickel and you put the bottle on the bar for the customer to help himself to whisky at a dime a glass."

Yes, and there was Adam Ziegler's place in Crown Street back home where a hot lunch was served every noon FOR FREE with any nickel drink.

We didn't realize that Irving Berlin's "God Bless America" was written in 1917 for "Yip Yip Yaphank," thrown out by him as too serious and not published until 1938! Every cent in royalties from it has gone to the Boy and Girl Scouts of America.

Mike Todd, one of our favorite show people, is in the big dough again with Todd-AO, a new big-screen movie system which is doing the Hollywood version of "Oklahoma." The Surrey With the Todd On Top, as it were, "Oklahoma," by the way is being shot in Arizona! This can mean war, men.

Jeanne Lieder, John Ringer Are Wed In Church At Hudson

A college romance culminated in marriage Saturday, July 3, when Miss Jeanne Lieder, daughter of Mr. and Mrs. Albert W. Lieder of

Mrs. John B. Ringer

W. 7th St., became the bride of John B. Ringer, son of Mr. and Mrs. John S. Ringer of Peninsula.

The double ring ceremony was performed in St. Mary's Church in Hudson at 2 p.m. by Rev. Cummings. "Ave Maria" was sung as the couple knelt at the altar.

The bride's ballerina gown of white Chantilly lace and nylon tulle over satin was fashioned with a softly sculptured strapless bodice covered with a brief lace jacket with fitted pointed sleeves and Peter Pan collar.

She wore a fingertip veil of illusion and carried a bridal bouquet of baby carnations centered with a white orchid.

A college roommate, Miss Jean Loria of Cleveland was maid of honor. The bridegroom's sister, Miss Ann Ringer, was bridesmaid, and Miss Kathy Walker of Sebring, cousin of the bride was junior bridesmaid.

Miss Loria and Miss Ringer wore matching ballerina length strapless dresses of pink nylon tulle over taffeta with satin inserts. Short jackets completed their ensembles. Miss Walker's dress also was fashioned of pink tulle over taffeta. The attendants carried colonial bouquets of baby pink roses and fern.

Dean Boose, president of the Sigma Alpha Epsilon Fraternity of Kent State University served as best man, and John Cross and Charles Wurzbacher ushered.

Mrs. Lieder, mother of the bride, wore a light blue nylon dress with white accessories and Mrs. Ringer was attired in navy blue nylon with white accessories. Both mothers wore corsages of pink roses.

The reception was held in the garden at the bridegroom's home. The refreshment table, decorated in mint green and pale pink, was centered with a three tiered wedding cake.

For traveling, the bride wore a navy blue two-piece dress with white accessories and the orchid from her bridal bouquet.

The new Mrs. Ringer is a graduate of Salem High School and Kent State University. Her husband is a salesman and also a student at Kent.

After Aug. 1, the newlyweds will be at home at 415 Lake St., Kent.

Salem Little League All-Stars Tromp East Liverpool 15-4

Hunter's Batting, Pitching Paces

Jones, Morlan, Smith, Krichbaum Stand Out

Overcoming a shaky start, the Salem Little League All-Stars swept to a decisive first-round victory in the Area C playoffs last night, a resounding 15-4 triumph over the East Liverpool Americans at Pleasant Heights.

East Liverpool, taking advantage of first inning Salem jitters, scored three times. But the locals surged back strongly, tallying two runs in the second and then breaking the game wide open in the third with a wild 8-run rally.

Thus, Salem now advances into the semi-finals of the Area C eliminations. Tonight, they will take on another East Liverpool team, the Nationals, at the same field at 6 p.m. A win tonight would put them into the area finals Friday.

Last night, David Hunter's striking five-hitter, in which he struck out five batters and walked only two, coupled with a powerful 14-hit attack barrage by his teammates, was just too much for East Liverpool.

After the losers countered three markers in the first inning on two hits and Salem's only two errors of the night, Elmer Smith's single, an error on Art Rottenborn's grounder, and two passed balls notched two Salem tallies.

Salem won the game in the third with its impressive eight-run outburst.

BOB MORLAN'S two hits in that inning, a single and a two-run double and Ned Chappell's two-run single were the big blows. Other hits in that frame went to Hunter and Charles Brown. There were also three walks, an error and a batter hit by the pitcher included in the scoring.

Singles by Danny Krichbaum, Bob Potter and Hunter brought home two more tallies in the fifth. In the sixth, the batting highlight of the game occurred when Benny Jones, pinch-hitting, smashed a tremendous 220-foot home run. With the fences about 180 feet away from home plate in Little League ball-parks, Jones' prodigious blast cleared the barrier with plenty to spare.

Following Jones' round tripper, Krichbaum, Tony Everett, Hunter and Morlan all singled for two more runs.

Bob Clunk belted a homer in the last of the sixth for Liverpool. Morlan's and Hunter's three hits paced the batting with Krichbaum adding a pair of safeties. Smith scored three runs while Hunter drove in three.

The All-Stars are managed by Ralph Mancuso with coaches Al Catlos and Dempsey Balsey. The potent Salem Pony League All-Stars also will taste action to-night opening a best-of-three series with the tough Warren Pony League 'Stars at Youngstown's Stambaugh Field.

The Little Leaguers play this evening at Pleasant Heights. Both games will get underway at 6 p.m. Last week, the Salem Pony Stars won three straight games to earn their way into this week's playoff series. Pete Saunders is the Pony League manager.

Merchants To Battle Waterford Wednesday

The Salem Merchants, still holding a two-game lead, will play host to the hot New Waterford nine at Centennial Park Wednesday at 6:15 in County League action.

New Waterford has won nine in a row to drive themselves up from the second division to a pennant contender.

Two Salem players, catcher Clyde Marks and outfielder Dick Loudon, appeared in Sunday's County League All-Star game.

President Ulysses S. Grant looked upon golf as good exercise, but he asked "what's the little white ball for?"

Harbert, Burkemo Meet In PGA Match Finals

By HUGH FULLERTON JR.
ST. PAUL, Minn. — Chick Harbert and Wally Burkemo, two golfers who thrive on the kind of competition where you face the other fellow and try to beat him down, meet today in the final match of what may be the best-

played PGA Championship in the postwar era.

It is the second man-to-man clash between these two, who live and work scarcely 10 miles apart in suburban Detroit, and the third PGA final for each.

In yesterday's grueling 36-hole semifinals, Burkemo, the defending champion, almost crushed Cary Middlecoff with one brief string of birdie shooting, let him get away and then came back to win on the 37th. Harbert, twice runner-up but never a winner in this tournament, had to go clear to the 36th green to down Tommy Bolt, 1 up.

Burkemo and Harbert clashed in the second round of the 1951 PGA at Oakmont, and the blonde, bright blue-eyed Burkemo won on the 19th hole. That was when Wally, playing his first championship, went all the way to the final before he took a 7 and 6 drubbing from Sam Snead.

Burkemo only lasted until the third round the next year, when it was Harbert's turn to go to the final, but he took the title last year at Birmingham, Mich. beating Felice Torza, 2 and 1.

Against Bolt yesterday, Harbert gained a 2-up lead at the 27-hole mark and then started to shoot steady pars until the holes ran out.

That admirable strategy didn't work. Bolt matched the pars for seven holes, then when it was a case of win or quit, he sank an almost unbelievable 40-foot putt for a birdie on the 35th. Both hit the final green in two shots and Harbert, the pressure now on him, ended the match by ramming a 12-footer into the cup.

Burkemo, starting the afternoon round, went from 1 down at the 20th to 3 up at the 25th by shooting birdies on four of five holes. But after the 30th he seemed to be tiring.

When Middlecoff rammed an approval stiff on the 36th green the match was square.

On the extra hole, however, Burkemo, outdriven by some 30 yards, laid his approach within nine inches of the cup for a sure birdie. Middlecoff couldn't match that.

Interleague Ball Games Idea Dropped

NEW YORK — The major leagues have dropped Hank Greenberg's idea of an interleague schedule, at least for 1955, and have agreed on a new rule to ban signing of college baseball players who have started their second academic year.

Milwaukee gets the 1955 All-Star Game, at a date to be determined later, and the problems of Caribbean winter baseball are to be solved at a final conference today between the Latin delegates and Commissioner Ford Frick.

The Caribbean leagues agree to end their seasons and playoffs by Feb. 15 for permission to use no more than five players from each major league team, of which at least two will be rookies who have appeared in less than 45 games.

All is set except the actual final agreement between Frick and the delegates. Player requests to deal directly with the Caribbean teams were rejected.

Frick said Greenberg's interleague proposal was withdrawn by the Cleveland General Manager at the joint meeting after being discussed at each separate league meeting.

The college rule represents a victory for Everett (Eppie) Barnes, Colgate athletic director, who fought for many years to get some protection for college players.

Mack Denies A's For Sale

In Famly Squabble For Control Of Club

PHILADELPHIA — Roy Mack emerged in his own light today as the current strong man of the Philadelphia Athletics.

The normally quiet, unassuming executive vice president of the American League club stuck his jaw out a country mile at the mid-summer baseball meetings in New York yesterday and announced the A's are not for sale, a half a hundred rumors notwithstanding.

And if that wasn't plain enough talk, the eldest son of Connie Mack declared he was in the throes of a family squabble with his younger brother Earle to obtain complete control of the club and change the downtrodden Athletics into a pennant contender.

Several weeks ago, Manager Eddie Joost had a row with outfielder Gus Zerniel over the big slugger's placement in the batting lineup. The argument was carried into Roy Mack's office.

When Zerniel and Joost had departed, Roy was asked by sports writers what it was all about. His rather wistful comment: "Nobody ever tells me anything."

Apparently something new has been added. Yesterday it was Roy doing the telling and in no uncertain terms. Admitting that he had discussed the future of the A's with a syndicate headed by Arnold Johnson of Chicago, who has been pushing Kansas City for a major league franchise, as well as several groups from points west, Roy said:

"When I say we are definitely not selling, I mean that. It's easy enough to kick a guy when he's down, but I'm not going to stay down."

"I'm going to battle for all-out control of this club, especially since the 'Save the A's' has got going."

This last was a reference to an effort by local civic and business leaders to retain the club in Philadelphia.

As for his hassle with his brother, Roy said: "Some time ago, my brother Earle said he would give me an option to buy his stock. We went so far as to practically have the options drawn up for signature. Then he backed down. I don't know why but he did."

The A's stock is divided just equally among Connie Sr., Earle and Roy.

"Go ask Roy where he is going to get the money," was General Manager Earle's comment.

Costa Defeats Toweel, Andrews Knocks Out Yvon Durelle In 5th

NEW YORK — Vic Toweel looked like you would expect an ex-champion to look at 26 and young Carmelo Costa of Brooklyn has all the earmarks of a real comer.

Toweel at 133 pounds was 15 over the weight he held when he lost his world bantam crown to Jimmy Carruthers in '52. He was slow in contrast to the clever 20-year-old hit-and-run artist who is unbeaten in 25 pro fights and a fast rising featherweight hope.

But Toweel showed the willing style of a mauler despite his loss to Costa on a unanimous decision in a 10-rounder at Brooklyn's Eastern Parkway last night. It was Toweel's first fight out of his native South Africa.

Andrews weighed 175½, Durelle 166½ for the televised bout witnessed by a crowd of 1,500. No receipts were announced.

Bliss Upsets Salem Tool 9-8; Paul And Joe, Parkers Win

One of the biggest upsets of the season and two masterful pitching performances highlighted action in the city softball leagues Monday night at Kelley Field.

The rapidly-climbing Bliss Cardinals, last year's league champions who are now shaking off an early-season slump, upset second-place Salem Tool 9-8 in an extraordinary see-saw battle. Tool's loss dropped them into a second place tie with Demings, only 36 percent of the points behind league-leading Butler Grange.

Classy hurling led Paul and Joe to a 5-1 triumph over Lisbon and gave Parkers a 7-1 victory over Goshen Grange.

Bliss 9, Tool 8
Manager "Peanuts" Debnar's Bliss crew is turning themselves into the comeback story of the year. At the end of the first round, the Cardinals had sagged badly to seventh place and league officials were forced to increase the size of the double-A league to prevent Bliss from dropping into "A" competition.

Now, however, Debnar's men last year's city softball champs, have advanced into fifth place, only ½ game out of fourth and a game and a half out of first. Last Thursday, they showed signs that they have once again regained the top form that made them the class of the city in 1953 when they upset the "AA" All-Stars.

Monday they did it again by coming from four runs behind to win in the top of the eighth.

BLISS STARTED with one in the first, but Tool surged back with five in their half of the first to lead 5-1. But Bliss, in the second, rallied for five more runs to take a 6-5 lead.

Tom Pastier's two-run clutch double with two out and the bas-

stepped on it—he might have come on to make it a close finish.

As it was, judge Joe Agnello had it 8-2, referee Scalzo 6-3-1 and judge Artie Schwartz 5-4-1, all for Costa. The AP card was 7-2-1 for the kid from Brooklyn who has 22 victories and three draws in his brief career. The crowd of 850 paying \$1.210 agreed with the verdict.

Paulie Andrews of Buffalo, N. Y., breezed past Canadian Yvon Durelle for a knockout in 1:06 of the fifth round last night at St. Nicholas Arena, finishing the bout with a right to the head. The Canadian was never in it, losing every round on the cards of judge Joe Eppy and Americo Schiavone and referee Abe Simon.

Andrews weighed 175½, Durelle 166½ for the televised bout witnessed by a crowd of 1,500. No receipts were announced.

Hanoverton Smashes New Garden 31-0

Hanoverton rolled over New Garden 31-0 in United Local Little League action Saturday at Hanoverton.

The winners scored in every inning including a wild 14-run fifth. They totaled 31 hits.

Winning pitcher Pike struck out 12 men, walked one and allowed only two hits. Mercer, the New Garden hurler recorded nine strike outs.

Bailey and Gorka paced the Hanoverton hitting with four safeties each. Bailey had a double included among his hits while Gorka notched a triple and three singles.

Ramsey had a triple and two singles, Pike lashed out three singles while Furey was credited with a triple.

For New Garden, Earnst blasted a double.

Indians To Face Red Sox, Seek To Increase Lead

Cardinals Edge Tribe 2-1 In Exhibition; Westlake Homers

CLEVELAND (AP)—With precious little to show for a month's hard work, the Indians seek to cushion their American League lead as Cleveland opens a series tonight against the Boston Red Sox.

Now, as exactly a month ago, the Tribe is a game and a half ahead of the New York Yankees.

The New Yorkers, however, are fair game tonight for the Chicago White Sox, who have given them many a mauling, while the Tribe can flaunt a 13-1 record at the Red Sox.

Yet the Red Sox are far from impotent, as the Indians learned a week ago in a 16-inning marathon that ended 5-5 when curfew was sounded near 1 o'clock in the morning, and in a 7-7 contest that afternoon, called in the ninth inning because of rain. But the Indians, in a subsequent doubleheader beat Boston, 6-3 and 5-2.

The game-and-a-half differential stands, despite a 30-day period in which:

The Yanks piled up a 13-game winning streak, longest in the majors this season.

The Indians lost four straight in Chicago, just prior to the mid-season All-Star Game break.

Injuries were suffered by Bob Lemon, Mike Garcia and George Strickland.

Hurt by a thrown ball in Yankee Stadium during the Tribe's 8-2 victory last Friday night, Strickland suffered a double fracture of the lower jaw, and the team's physician, Dr. Don Kelly, says he will be out for an indefinite period.

Bob Lemon seeks his 12th victory tonight, facing the Red Sox' rookie Frank Sullivan.

The Indians took a 2-1 beating last night in an exhibition game with the St. Louis Cardinals.

The Cards appeared here for the first time since 1936, when a rookie pitcher named Bob Feller struck out eight of their batters in three innings of the exhibition.

The National leaguers' victory last night was on a two-run homer by Rip Repulski, blasted in the fourth inning off Art Houtteman, who gave up six hits in five innings. Repulski's homer came with two out and Stan Musial, who had singled, on base.

Wally Westlake belted a homer in the second, for the Indians' sole run.

While Mike Garcia sat on the bench beaming over the birth yesterday morning of his first child, the Cleveland pitcher received news that his father had died in California.

He had visited his wife, Gerda, and the new six-pound, three-ounce boy, Michael Martin, born at Lakeview Hospital.

His father, Merced Garcia, 65, died at Visalia, Calif., after a long illness. He had been a trainer and breeder of horses. The elder Garcia also is survived by four daughters and two other sons.

Noren, Snider Hike Leads In Batting

NEW YORK (AP)—Irv Noren, of the Yankees and Brooklyn's Duke Snider have lengthened their leads in the major league batting races.

Noren today owns a commanding 34-point advantage over runner-up Minnie Minofo of the White Sox in the American League. The Yankee outfielder is swinging at a .358 clip as compared to Minofo's .324 mark.

Snider, after boasting a 10-point edge last week, now is 19 points ahead of his nearest competitor, Don Mueller of the Giants, in the National League hitting parade. The Dodgers' flycatcher is batting .363, while Mueller stands at .344.

Noren, with 10 hits in 29 at bats, lost two points during the week Minofo moved up from third by going 11-for-31 and gained two points, Cleveland's Bobby Avila, second last week, lost 21 points and fell to fourth at .320, one point behind third-ranking Mickey Mantle of the Yanks with .321.

Snider went 10-for-25 and increased his average two points. Mueller, meanwhile, remained second, but lost seven points by going 8-for-30. Six-times batting champion Stan Musial of the Cards advanced from fifth to third at .337, followed by his rookie teammate Wally Moon in fourth with a .336 mark.

GETS TENNIS MATCH
MANSFIELD, Ohio (AP)—Akron today has the state's invitational amateur tennis doubles title. Bob Hihousen and L. C. Shofner, both of the rubber city, defeated Bill Rathbun and Bob Brown of Toledo 6-3, 6-0, to win the crown. In the semi-finals, the Akron pair eliminated Mac Maffett and Ken Rupp of Middletown, 6-2, 6-1.

Sidingers Defeat Bloombergs 16-12

Sidingers defeated Bloombergs 16-12 in Class B action at Centennial Park Monday to break a second-place tie between the two squads.

Two big innings, a six-run first and a five-run fifth, led the winners to the victory.

Bill Sidinger had three hits for the winners while Jerry Menichelli lashed out two for the losers. Forst McBrien was the winning hurler; Pudge Leninger, the loser.

Tonight, Strattons still undefeated, tangles with Sidingers. Friday evening Bloombergs and Strattons are pitted.

Racing Resumes At Canfield Wednesday

After a brief layoff because of a horse show, the Canfield Speedway resumes racing this week with a two-card program. Tomorrow night, an all Hard Top slate will be co-featured with a thrill show contest.

At least 60 Hard Tops will take part in the five-event program, which includes three heat races, a semi-feature and a 25-lap finale.

Also, three thrill-show troupes will compete for honors. In action will be Flash Gordon's Atomic Hell Drivers, Ward Beam's 1953 World Champion Auto Dare Devils and Billy Green's Canadian Aces.

Saturday night the Sportsmen Division returns for an eight-race program with Mike Klappak, Warren, and Bob James, Cleveland, resuming their duel for leadership in the MARC circuit. James currently has a slim edge.

County Fair Racing Testina Rule Changed

COLUMBUS, Ohio (AP)—County and independent fairs featuring pari-mutuel betting on harness races will get a break from the state racing commission.

Gov. Frank J. Lausche yesterday signed an emergency order allowing the commission to waive urine tests for harness race winners. The commission indicated it would approve the waiver today.

A requirement for saliva tests will remain effective. The tests are used to detect illegal stimulation of horses.

Lausche said his order would permit the commission to pay veterinarians for tests instead of county agricultural societies.

Racing permits issued to date include the Jackson County Fair which opened last Wednesday in Wellston and Delaware, Fayette, Miami and Knox county fairs.

Pending applications include Anglaize, Williams, Marion and Champaign counties and the Attica Independent Fair in Seneca County.

Dodgers Hand Giants 5th Loss In Row, 9-1, Braves Trip Pirates 3-1 For 5th Straight

Rule Is Vague For Sunday Games At Dark

By GAYLE TALBOT

NEW YORK (AP)—After one has gone into the strange affair at some length, he does not wonder that there was a certain amount of confusion just before darkness descended upon Busch Stadium in St. Louis a week ago Sunday.

He wonders, rather, that there occurred no more than a small-size riot between members of the St. Louis Cardinals and Philadelphia Phils, that a game was forfeited to the Phils, and that Manager Eddie Stanky of the Cards wound up with no worse than a fine and suspension and making a public apology to the fans of his town. The possibilities were much greater than that.

To recall the circumstances, the Phils were leading 8-1 and were still at bat in the top of the fifth. Once they were out and the Cards had taken their turn, it would have been a legal game and probably, a Philadelphia victory. The sun was down, Stanky—and apparently everybody else in the park—was under the impression that the lights could not be switched on to complete a game that had started after 6 o'clock.

So, as is common in such cases, Stanky stalled for time. He brought in fresh pitchers at the drop of a foul. Tempers flared and there were fistfights. Finally, with two Phils out, Umpire Babe Pinelli lost patience and forfeited the thing to the victors.

National League President Warren Giles, in upholding the forfeiture and meting out punishment, observed that Stanky—and, presumably, everyone else—did not realize there was a new league rule which permits the turning on of lights to complete Sunday games in all cities except Philadelphia and Pittsburgh. The only stipulation is that no Sunday game may be started under lights—in other words, no scheduled night games on that day.

So, where does that leave us? It leaves us facing the fact that Stanky, not knowing of the rule passed at the last league meeting, committed acts which cost him a ball game that his club might possibly have won in the regulation nine innings under lights. It also leaves us wondering why the umpires, if they were aware of the new rule, did not remind Stanky of it when he began stalling for time. Part of an umpire's duties is to head off trouble.

Driven by curiosity, we have sought to read a copy of the new regulation locally, but so far without success.

"I think we have a copy somewhere," said one magnate. "Anyway, there's no doubt that the rule was passed, because I was there."

He was told that, believe it or not, there was nothing in the previous year's regulations that said one way or the other whether the lights could be turned in St. Louis on Sunday. It said games at Philadelphia and Pittsburgh had to stop at 6:59 p.m., and that there could be no Sunday lights at Boston, which still was in the league when the copy was printed. But nothing at all about the other cities.

And so, we seem to arrive at the fact that, before this season, National League umpires did not permit Sunday lighting under any no official rule against it. And that circumstances, though there was now, when they are specifically instructed to finish Sunday games under the lights when necessary, they don't seem to know about it.

We also come to the conclusion that Stanky should try protesting the game again just to see what happens.

3 Prisoners Chase Long Fly, Keep On Running

AHOSKIE, N. C. (AP)—Three Currituck County prison inmates were unaccounted for after a baseball game between the camp teams of Hertford and Currituck counties. The batter knocked a long, high fly. Three fielders ran—and kept running.

hidden Giants' losing streak to five straight and chiseled their first-place lead over the Dodgers to only three.

"I'm not worried about a thing," Durocher said after last night's loss. "We're still in a great spot. They've still got to catch us."

"Sure, we're in a little slump. But I think the worst is over. We were due to level off a bit the way we were going before the All-Star Game. Now we're back home for a long spell and everything will be all right."

The Dodgers' 15-hit victory was their first over Sal Maglie at Ebbets Field. Maglie had whipped them 10 straight times in Brooklyn.

Milwaukee's Braves, whose dimmed pennant chances began to flicker anew after their three-game sweep of the Giants over the past weekend. Made it five in a row with a 3-1 victory over Pittsburgh. Gene Conley, Milwaukee's 6-foot-8 rookie right-hander, doled out four hits while Billy Bruton and Eddie Mathews were providing the offensive spark to move the third-place Braves to within 10½ games of the Giants.

Bruton opened the game with a triple off loser Bob Purkey and scored on a single by Mathews. In the third, Bruton singled, stole second and scored on Mathews' second single. Doubles by Joe Adcock and Andy Pafko in the sixth accounted for Milwaukee's third run.

All other clubs had an off day as they girded themselves for the busy schedule today. The spotlight is on Chicago, where the second-place New York Yankees and third-place White Sox meet in the first of a three-game series. Cleveland, which leads the Yankees by a game and a half, is host to Boston's Red Sox, whom they've beaten 13 times in 14 meetings.

The Dodgers, who were sched-

College Basketball Track To Be On TV

NEW YORK (AP)—College basketball and track are going to join football on big-time television this winter.

The American Broadcasting Co. lifted the wraps a little from the plan they used to lure the NCAA's big football program from the National Broadcasting Co. and it showed a 26-week winter and spring schedule of college sports.

The joint announcement by ABC and the NCAA came yesterday.

Robert H. O'Brien, executive vice president of ABC, and Les Arries, the network's sports director, said plans for the additional sports shows were not yet complete. But Arries said it probably would begin with the LaSalle-Niagara basketball game Dec. 11.

Other possibilities for the Saturday telecasts, Arries said, include the Dartmouth Winter Carnival, the Penn and Drake Relays, the IFA Regatta at Syracuse, the Big Ten-Pacific Coast Track Meet and the Intercollegiate Rodoo at Colorado A&M.

ABC televised a college basketball game each week during last season over a network that covered the East and Midwest.

Trade circles said ABC paid about two million dollars for the football TV rights and speculated that the extra college shows probably swung the deal away from NBC. NBC has countered with a Saturday schedule of Canadian pro football.

Colonels Fall 11 Games Behind Indianapolis

By The Associated Press

The Louisville Colonels fell back in their bid to gain American Association contention, losing 6-4 to Kansas City Monday night while the league-leading Indianapolis Indians were going 11 innings for a 3-2 verdict over Toledo.

The two clashes were the only games scheduled.

The Indians upped their edge over the runnerup Colonels to 11 games by cashing in on two Toledo errors in the 11th.

Kansas City, totaling 13 hits, overcame a four-run Louisville outburst in the third inning with two runs in the fourth and three in the sixth.

DEATH RIDES AGAIN!

Driving a passenger automobile up a 10 foot high ramp at 60 miles an hour, leaping it 90 feet through space and crash landing it into 7 parked automobiles is just one of the 40 Smashing, Crashing, Wrecking and Racing events that will be put on when the combined "Gold Cup Stock Car Races" and the International Auto Daredevil Championship Contest is put on at the Canfield Fairgrounds 8:30, Wednesday, July 28th (in case of rainout the following Wednesday night).

This 90 foot leap through space is the event that took the life of the late Lucky Teeter and that of Jack Perry. Three different men one from each of the contesting Thrill Shows will attempt this great feat at this great combined show—and three men one from each Thrill Show will compete in every one of the contestable Auto and Motorcycle Daredevil stunts to see what Thrill show and what individual Daredevil wins the 1954 title of World Champion.

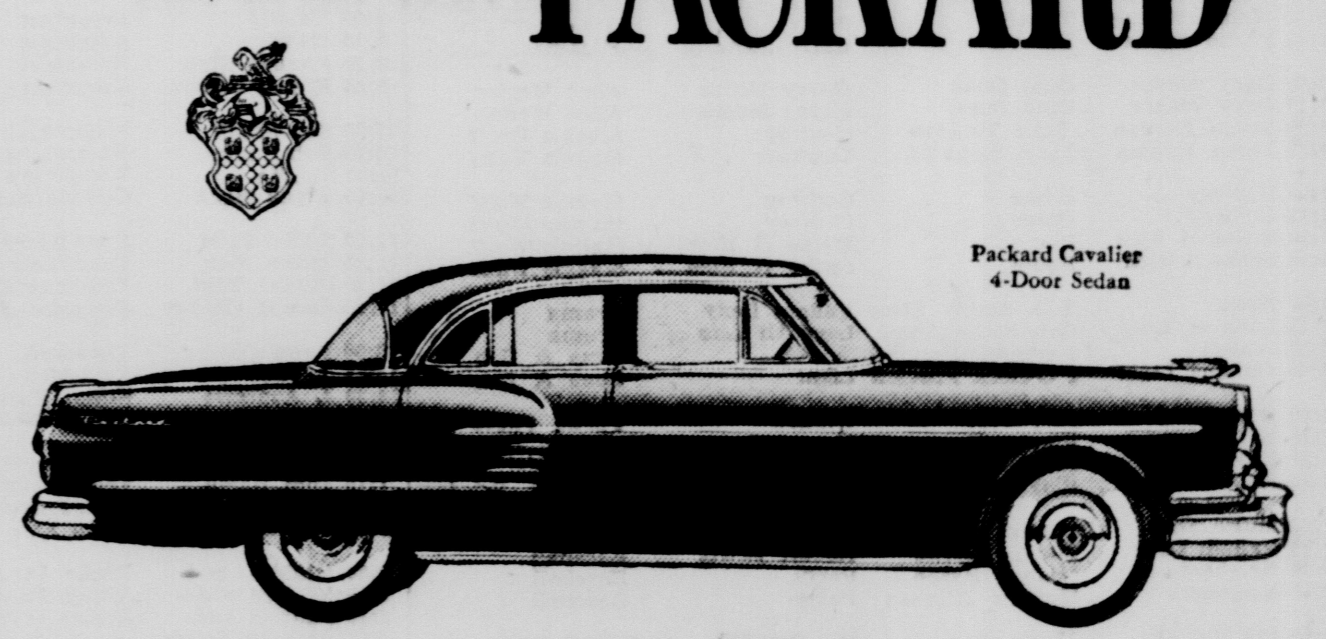

There will be a complete program of stock car races with most of the leading drivers of the State competing, and the three Daredevil shows that will compete are, "Flash" Jordan's Atomic Hell Drivers Billy Green's "Canadian Aces," and Ward Beam's 1953 World Champion Auto Daredevils.

This big two and one half hour show will give you every thriller in the book, and for the whole show the price of admission is only Adults \$1.80, Children 50c

Pavement Plato

By HAL BOYLE

NEW YORK (AP)—Random reflections by a pavement Plato:

Old bachelors are usually more fussy and set in their ways than old maids—probably because they don't keep pet cats.

Nobody I know ever made a life-long friend at a cocktail party.

Did you ever meet a life insurance salesman who didn't carry a pocket calendar in his wallet?

Anybody who doesn't appreciate what he has now will never be made happy by what he gets later.

Nine out of 10 men brag they are hard-headed but can be put down as intolerant bores.

The ordinary cop has to get in a gun battle to get his picture in the papers. But he performs more little unnoticed acts of real philanthropy in a week than the average millionaire does in a year.

Men get more pleasure out of a new pair of shoes than women do, but they always feel self-conscious in new headgear. It is this odd feeling of inferiority that makes them jier so much at women's hat styles.

Whenever I see a guy tip a hat-check girl more than two bits, I can't help feeling he is a showoff and probably stingy with his own wife.

On the other hand, when a woman breaks into tears at a restaurant table, why does everyone in the place leap to the conclusion she must be wonderful and the guy sitting with her is a lousy bum? It could just as easily be the other way around.

I never yet met a middle-aged man who admitted he owned a raccoon coat in college.

Half the women who claim they like caviar are prestige liars, and if the stuff sold for a dollar a pound they wouldn't be caught eating it. The most popular food with women today is tuna fish and weary lettuce, but they get their greatest satisfaction gnawing on old steak bones at home, when nobody can see them. A woman doesn't fool a waiter when she tells him to wrap up the remnants of a big restaurant steak "so I can take it to my dog." He knows that, even if she does have a dog, the dog won't eat any of the steak unless it is willing to fight her for it.

Nothing cheers the heart of a

bald-headed man more than seeing another fellow in an ill-fitting toupee.

Whatever happened to "Wrong Way" Corrigan, technocracy and canasta?

After all the trouble I've seen, the vision that returns most often to my mind is the sight of a little girl in a Sunday dress, nearly 20 years ago, who skipped down a garden and paused to pet each flower on the head, talking to it as if it were alive. I never knew who she was, but over the years the pretty scene often swims back into my memory, and I wonder if life has been as kind to her as she was to those flowers in that moment long past.

Some people confuse mechanization with civilization. I feel sorry for a man who doesn't bother to watch a sunset from his back porch because he knows that in a year or two he can see it in his living room on a color television screen.

The best free advice I ever heard came from an old farmer who said, "anybody who marries—or buys a horse—in a hurry is bound to have worries."

Has anybody noticed, since Dr. Kinsey's last book came out, that women are getting any easier to understand?

Damascus

Mr. and Mrs. Robert Moore were honored at a surprise party Friday evening in observance of their 30th wedding anniversary. Guests were from Salem, Middleton and Damascus.

An informal time was enjoyed with visiting and gifts presented the honorees. Lunch was served from a beautifully appointed crystal and silver table setting, with a decorated cake encircled with sweet peas for the center piece.

The event was arranged by their daughter, Mrs. Frank Mitchell and daughter-in-law, Mrs. Robert Moore with 75 present.

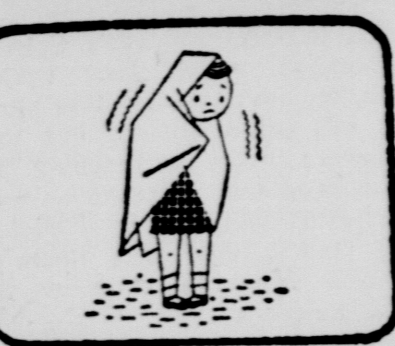

Mr. and Mrs. David Pollard of Ingersoll, Canada, are visiting Mr. and Mrs. Paul Warrington and other relatives and friends.

Lawrence Petre of Miami, Fla. visited Mr. and Mrs. C. E. Stanley Friday.

Inside Labor

By Victor Riesel

There are indeed many intricate networks of Soviet fifth column run by the Russian embassy in this confused, frightened and yet booming capital of world gaiety and betrayal.

The names of the Soviets' s-b-outeurs, killers, spies, infiltrators into government, bureau, cafe and "relais" keepers, union officials, and the soft contacts in our own overloaded embassy are kept in the embassy of the U.S.S.R. on highly inflammable negatives. They can be burned in a roar of flame with the drop of a match.

There are those in high places here, especially those close to our own American labor leaders, who say that this fifth column dooms France.

They say that Mendes-France ended the crack-down on the Communist apparatus. They call him "Bene-France" and accuse him of having set Paris on the road to Prague. Yet there are those equally well informed who defend Mendes-France.

They say that Mendes-France ended the crack-down on the Communist apparatus. They call him "Bene-France" and accuse him of having set Paris on the road to Prague. Yet there are those equally well informed who defend Mendes-France.

ALL AGREE on the power of the Soviet Fifth Columns in this land — networks which have agents inside the very plants which make spare parts for our planes and guns and tanks.

Networks which were able to call out 2,600,000 disciplined Communist workers last April 28 in a strike denounced by every one but the Communist party — and which the party itself in a confidential report of the Organization Committee of the C.G.T. to all Affiliates and leaders said was badly timed and "Not in accordance with the possibilities of the full mobilization of the workers."

That national strike — which the Communist party hopes to repeat in month or two — would have been far more effective if not for counter action by our friends which can be reported here for the first time.

The strongly anti-Communist premier who preceded Mendes-France, working through channels which cannot be revealed, quietly gave tough French veterans of the Indochinese fighting jobs in such factories as the Renault auto and tank plants. The vets, counterparts of our GI paratroopers who saw action in Korea, hate the communies and began mopping up the party's terror squads.

RESULT WAS that when the communies began rounding up support for their April 28 rehearsal for revolution as a show of strength, the French vets of the Indochinese war protected the non-Communist workers.

Only 700 out of 35,000 Renault workers struck, although the Communist party is known to have 1,500 card-carrying members in its Renault industrial club. This meant that our friends had begun cracking party strength and discipline. This was the case in the entire metal industry of Paris—in Simca and Citroen, as well as in the Renault works, despite the power of the party amongst the workers in the Red belt towns around Paris.

Some of the government officials who worked with the anti-Communists against the industrial fifth column were fired over the July 10 weekend. Without government support, our friends will be beaten back by the commie goon squads.

Matching the fifth column among industrial workers is a Communist network among the farm workers in the lush French countryside.

Our rural friends, who could use a little of the loose money poured into this city by some of our agencies, report that the Communists have a network built around the old Red partisan apparatus of the last war.

This rural fifth column is completely organized, and is under in-

structions to do nothing but wait for the moment when it is to receive Soviet parachutists at night, hide and guide them against our troops, air bases and material depots, not to mention, of course, the NATO headquarters under the truly great Gen. Gruenther.

ANTI-COMMUNIST farm workers' leaders are doing some counter organizing and are publishing an effective little paper — but they have little money to continue this work, let alone trying to match what the Russians pour in.

So there's no doubt that the Russian saboteurs and troops will be well received behind our lines — if the signal for war comes.

Meanwhile the communies have grown so arrogant they boast in their press — as they did recently — that they will sabotage the land if France ratifies the European Defense Community charter. And they can, too.

They have a minimum of 50,000 trained underground "troops" made up of husky miners, metal workers, dockworkers and just plain thugs. Already their shock troops — working with such notorious bands as the "Camelots du Roi" — assault pro-American public speakers.

The main body of their fifth column troops, like their spies in waiters' unions; their agents in the atomic research labs, chemical plants and power houses, and their friends in movie and television circles — some led by the Red existentialist Jean Paul Sartre and old Picasso himself — sit by and wait the signal.

Some will be saboteurs and some will be propagandists — but all will be fifth columnists who want to see the U.S. destroyed.

QUESTIONS AND ANSWERS

Q - How did the term "hard-bitten" originate?

A - The expression evolved from a descriptive term popularly used in the last century. Certain dogs were referred to as "hard in biting"; hence, dogged, as a hard-bitten sergeant.

Q - May a convict decline a conditional pardon?

A - Yes.

Obituary

William A. Unger
NEW WATERFORD — William Albert Unger, 81, retired carpenter of New Waterford, died of a heart ailment Monday at 6 p.m. at Salem City Hospital after an illness of two years.
Born in Unity, Aug. 2, 1872, he was the son of Aaron and Mary Wetzel Unger. In 1922 he married Alice Wigley Rauch, who survives.
He was a member of Salem Reformed Church.
Survivors also include his stepdaughter, Mrs. Charles Bacon of East Palestine; stepson, Kenneth Rauch of New Waterford; a sister, Mrs. Oscar Elser of Columbiana; three brothers, Harry Unger of Columbiana, Otis Unger of North Lima and Edward Unger of Youngstown; six grandchildren and three great-grandchildren.
Funeral services will be Thursday at 2 p.m. from the Seedeley-Belhart Funeral Home, Columbiana. Burial will be at New Springfield Cemetery with Rev. William Thomas of New Waterford Methodist Church officiating.
Friends may call at the funeral home Wednesday evening.

Theresa P. Springer
LISBON — Miss Theresa P. Springer of 509 N. Market St., who fell and broke her hip a month ago at her home, died Monday at 2:45 p.m. at Salem City Hospital. She was 83.
Miss Springer, who lived in Lisbon her entire life, was employed at the Lisbon post office for a number of years. She was a graduate of David Anderson High School.
Born July 23, 1871, she was the daughter of Peter and Eliza Springer. Her only close survivor is a sister, Miss Louise Springer of the home.
Services will be held Thursday at 2 p.m. at the Henry Funeral Home with the Rev. Percy Lomas of the Methodist Church conducting. Burial will be in Lisbon cemetery.
Friends may call Wednesday afternoon and evening at the funeral home.

Potato Growers Invited To Meeting Aug. 2
A twilight meeting of potato growers will be held at Agnew Farms, one mile south of Boardman on Route 7, Monday evening, Aug. 2 at 7.

There will be a tour of the 65 acres of potatoes on the farm, an inspection of the seven varieties, irrigation and various other things. Following the tour, there will be a meeting. Speakers will include Walter Mellenbacher, potato grower of New York state and Victor Kierns, manager of the Ohio Potato Growers Association. Dr. J. P. Slesman and Dr. J. D. Wilson of the Ohio Experiment Station are expected to attend.
Elbert Agnew, one of the brothers operating the farm, is president of the Potato Growers Association of the Mahoning - Columbiana area and a director of the Ohio Potato Growers Association. All potato growers are invited.

Fighter Pilot To Address Kiwanians

Col. Victor N. Cabas of New Castle, Pa., a fighter pilot in both World War II and the Korean conflict, will tell of his experiences when he speaks to Kiwanis Club members Thursday noon in the Memorial Building.
Col. Cabas is a brother of John Cabas, Salem High School basketball coach.
Col. Cabas, much decorated, has received the Distinguished Flying Cross twice and also has been awarded 23 air medals. During the World War, when he fought in the African campaign and took part in D-Day hostilities, he was credited with nine enemy planes destroyed and 12 locomotives on the ground.
He first became a fighter pilot with the Royal Canadian Air Force. Joseph Pales is program chairman.
Local Kiwanians will attend the 15th divisional meeting in East Liverpool. The club will hold a meeting at the Salem Golf Club Aug. 5, attend the Cleveland - New York ballgame Aug. 3, and hold a club members swim party at the Centennial Park Pool Aug. 11.

Atomic

Continued From Page One
on a debate-limiting move yesterday.
Under the Senate's cloture, or debate-limiting rule, each senator is allowed to speak on a bill and all amendments for only one hour.
Knowledge trial to put the rule into effect yesterday to bring a halt to a debate now in its 13th day, but to do so he needed 64 votes, or two-thirds of the entire Senate membership.
As it turned out, he got only 44, and 42 votes were cast in opposition.
After cloture was rejected, the Senate began to act on the atomic bill and disposed of nearly a dozen amendments before the tabling of Morse's amendment brought a jarring halt.
The measure had been passed earlier in the day by the House along the lines requested by the administration.
Indications that Knowland's tabling motion and revived the do-or-die spirit of the bill's opponents in the Senate were confirmed by Anderson's words.
Newsmen asked him, when he spoke of the Senate now being here to Thanksgiving, whether he were serious. He said he certainly was.

DROWNS IN OHIO

GALLIPOLIS, Ohio — Miss Harriett A. Elliott of New Castle, Pa., drowned yesterday in the Ohio River when her car plunged over a high bank at a roadside park. She was about 65. Arlie Davis, 29, of Middleport said he was driving on Ohio 7 behind Miss Elliott's car when she apparently stepped on the brake and he struck the car's rear fender. The car left the road and tumbled over the cliff into about 25 feet of water. Davis said he tried unsuccessfully to save the woman.

Livestock Building For Fair Going Up

LISBON — The skeleton form of the new judging building at the Columbiana County Fairgrounds is taking shape and should be completed in about two weeks, President of the Board Galen Greenisen said today.
The fair board changed plans Monday night and voted to roof the 60 by 120 foot building with steel instead of aluminum. They felt steel would be more substantial.
The shelter will open at the sides and will have two rows of 12-foot stalls to accommodate livestock awaiting judging.
Located between the cattle and speed barns, the structure is being erected by volunteer workers.
A \$1,300 contract with Salona Supply Co. of Salm was signed to furnish 400 feet of 7-foot fencing to be stretched across the front of the grounds.
The 1 1/2 inch water line to the stock barns has been installed.

Hunston Pledges Self To Positive Campaign

STEBUNVILLE — Attorney W. J. Hunston of Salem, Republican nominee for Congress, said here last night in a televised talk over WSTV that during his campaign he intends to follow the advice given in a song popular some years ago: "Accentuate the positive and eliminate the negative."
Saying his campaign "will be built on a positive and aggressive program," Mr. Hunston said Americans "have been plagued with the 'new deal,' 'fair deal,' and more recently by the gloom and doom peddlers of the 'fear deal' of which my opponent (Wayne Hays) was one of the leaders."
He warned that if these "fear dealers" regain control of Congress, "it will be the 'last deal' for the free enterprise system."

Indochina

Nam could be defended militarily against the reds, but he only shrugged when asked about the political prospects. Many French civilian officials here share Cogan's doubts of the future.
With the cease-fire, Cogan turned his effort to the mammoth task of moving his thousands of French and Vietnamese troops from their shrunken sector of the northern delta to the southern holding left to the Viet Nam government headed by ex-Emperor Bao Dai.
The Vietnamese were expected to take control rapidly of the territory being evacuated.
The first phases of the military withdrawal began with the armistice hour. Companies began falling back to their battalion headquarters areas in preparation for a progressive withdrawal to the port of Haiphong.
By Aug. 11 Cogan must have soldiers and civilians being evacuated from north, west and south of Hanoi massed in a 10-mile zone around the North Indochina capital, once the official seat of French power in the Far East.
They must be out of the Hanoi area within 80 days from today. The marchers to the sea must be past Hai Duong, midway on the route, 20 days after that. The evacuees have 300 days from today to quit their Haiphong beachhead, destined to be the last French foothold in North Viet Nam.
Not all the Vietnamese troops will be moving south. The French admitted yesterday that a number of the native soldiers were pulling out of their posts and disappearing, presumably returning to their homes in hopes the Vietnamese would forgive and forget.
French officials also pushed plans to move hundreds of thousands of French and Vietnamese civilians southward, as many as want to get away. They planned to begin a combined sea and air lift tomorrow and predicted it would be taking 5,000 persons daily away from Hanoi and Haiphong by mid-August.
It was an hour of triumph for Ho Chi Minh and the Reds, an hour of bitter defeat for the French and the anti-Communist world. Under the terms of the Geneva agreement, Ho and his Vietnamese get control of almost 78,000 square miles of Viet Nam's total 127,380. In that northern portion live between 11 and 12 million people.
Each side had paid a heavy price for the result. Though the French officially put the total of military casualties on both sides at around 320,000, unofficial sources figured them at close to 800,000 dead, wounded or missing. Of these, 175,000 were French Union Vietnamese troops. The Viet-

minh dead and wounded were estimated at 660,000.
There was no estimate of civilian casualties.
In money and materials, the war cost France and the United States some 10 billion dollars.
The cease-fire will be supervised by a commission made up of India, Poland and Canada, with India as chairman. An official of the Indian Foreign Ministry announced in New Delhi today that his government has invited the other two commission members as well as France, Viet Nam, Laos, Cambodia and the Vietnamese to meet at an "early date" in the Indian capital to discuss arrangements for the group.

Damascus Will Have Firemen's Festival

The "Gilt Chain" by which nine 4-Hers receive a young pig each year was outlined by Galen Greenisen, chairman.

Gas Firm Must Answer Alliance Complaints

COLUMBUS, Ohio — The state utilities commission today gave the Natural Gas Co. of West Virginia to Aug. 5 to provide a written answer to complaints it has decided not to take on new heating customer service in Alliance.
The City of Alliance on July 15 told the commission the company plans to cut down on repairs and refuse service to many new customers. Alliance wants the commission to order the company to supply "adequate and sufficient service" in Alliance.
Recently the commission granted Natural Gas an emergency rate increase and later reduced the amount. The company now claims it has insufficient revenues to provide service for new customers.

Seen Executive Problem
Chairmen of both the Senate Foreign Relations and Armed Services committees urged colleagues to let the White House and State Department call the signals.
Sen. Wiley (R-Wis.) announced the Senate Foreign Relations Committee which he heads probably will discuss the situation during the week with Secretary of State Dulles.
Wiley said his advice, meanwhile, is that "this should be left in the hands of the executive" and that official Washington should "not fly off the handle."
He said the Red shootings "did not create a new situation — we have been at war with the Chinese Communists for years in Korea."
"But if these conditions persist," he said, "I personally feel we should indicate we are ready to protect our rights on the sea lanes of the world, and that we will not tolerate interference with those rights."

Hanoverton Benefit Dinner Attracts 500

HANOVERTON — Henry F. Loudon, president of the Hanover Township Volunteer Fire Association, said today approximately 500 persons attended the steak dinner Saturday evening marking the opening of the new fire house.
Mrs. Hildreth Lindesmith, chairman of the dinner, was assisted by members of various Hanover Township organizations.
The building of concrete block with a brick front, was erected at a cost of \$6,375. Nearly \$1,000 had been raised previously, with the balance to be obtained from the dinner Saturday, and a festival to be held in the near future, co-sponsored by firemen and the Hanoverton American Legion post.

Rhodes Raps State Park Fund Spending

COLUMBUS, Ohio — Republican gubernatorial candidate James A. Rhodes yesterday said the state division of parks failed to use considerable cash appropriated by the Legislature for improvements.

Rhodes said appropriations in nearly 10 years ending last June 30 totaled more than 15 million dollars, of which nearly \$2,180,000 was unused and allowed to lapse into the state's general fund as unneeded.

This charge was denied by A. W. Marion, state director of natural resources. In a statement to newsmen, Marion said:

"The figures are in error and completely misleading. Only \$15,000 of 'additions and betterments' money appropriated to the parks division has been permitted to lapse since the division was created five years ago. And even that was reappropriated to other park use.

"Of \$750,000 appropriated for inns, cabins and lodges, all but \$91,780 has been spent."

Marion referred to a statement by Rhodes which said:

"... Of the \$750,000 amount, Gov. Lausche spent \$260,607, transferred \$203,055 to other capital improvements and returned \$286,337 to the general revenue fund as unneeded.

"On June 30, 1954, the governor had a cash balance of four million dollars in the division of parks."
